Re: El Dorado's (AR0033723; AFIN 7000341) First Draft Ordinance Revision Review to Meet the Streamlined Federal Pretreatment Regulations in 40 CFR 403

Dear Mr. Baker,

A review of your revised Pretreatment Ordinance to bring it into compliance with the streamlining modifications to the Federal Pretreatment Regulations located in 40 CFR 403 has been completed.

Your first draft revised ordinance did not follow the template/format of EPA's model ordinance. This office restructured some of your sections to help it parallel EPA's model ordinance, making it more readable and standardized with others in this State (and nationally).

You have been e-mailed an MS Word attachment of this office's review of your draft ordinance. You should be able to open, save under a different file name and make the appropriate required/recommended revisions.

Please re-submit your final draft ordinance to this office within sixty (60) days from the date on this correspondence for final review and approval.

If you have any questions or comments, please feel free to contact this office.

Sincerely,

Allen Gilliam
ADEQ State Pretreatment Coordinator
