Lisa,

My apologies, I should have been more formal in approving your Pretreatment Program submittal on 12/21/12.

Find below appropriate language for approval.

Sincerely,

Allen Gilliam
ADEQ State Pretreatment Coordinator

Subject: program approval

Lisa,

This office has completed your local limits section review to approve your entire Pretreatment Program.

I could review your TBLL section a dozen different times and come up with a dozen different suggestions. Don't you think it's now self-explanatory to conclude local limits aren't necessary at this time?

All I have at this time is bits and pieces of your Program narrative and an approved Pretreatment Ordinance.

If you will place the different sections together in the format you want (following your table of contents?) and send the Program (preferably in a 3-ring notebook) to this office via the USPS or common carrier at your earliest convenience your Program approval date will be incorporated by reference into your NPDES permit as a minor modification. You will be sent the modified pages of your current NPDES permit.

It will not be public noticed as EPA has stated this procedure was accomplished via the Federal Register upon the promulgation of the "Streamlining Rule" revisions to 40 CFR 403 on 10/14/05.

You don't need to include the Ordinance at this time as I understand there are some minor title changes that have to be changed. The final Pretreatment Ordinance can be sent when those revisions are complete.

Thank you for your time, patience and expedience throughout this required revision process.

Sincerely,

Allen Gilliam
ADEQ State Pretreatment Coordinator
