Hazardous Waste Notification Requirements**

Dear Mr. Brunson:

We appreciate your cooperation over the past few weeks. We have completed a review of historical records and the Company Hazardous Waste program and have confirmed that there are no components of the generation of hazardous waste that are discharged to the POTW. Based on our discussions and your plant visit yesterday we are attaching the certification form that Xpress Boats does not discharge industrial waste to the POTW and that all hazardous waste activity is strictly segregated from the sanitary discharge to the POTW.

Xpress Boats acknowledges requirements under 40 CFR 403.12 to notify the POTW that Xpress Boats does not release Hazardous Waste or any other regulated waste to the POTW. The piping system at the facility is used to discharge domestic sanitary waste only.

Sincerely,

Alan J. Stanich
