Subject: AR0051951_Conways 33359 and 47279 April 2013 Annual Pretreatment Report reply_20130501

Trey,

Your April 2013 Annual Pretreatment Report was received on 4/22/13, reviewed, deemed complete and compliant with the Federal Pretreatment reporting requirements in 40 CFR 403.12(i). There are no further actions deemed necessary at this time.

It's noted that you have listed Conway Regional Medical Center as a non-permitted IU. If it is the case this facility does not meet the definition of a significant industrial user, they do not have to be listed on Attachment A.

Please keep this office apprised of the activities of your new Tupelo Bayou wastewater treatment plant so maximum allowable headworks loadings (MAHLs) and maximum allowable industrial loadings (MAILs) can be assessed to supplement your modified Pretreatment Program.

Thank you for your timely report remaining in compliance with the Federal Pretreatment Regulations in 40 CFR 403.

Sincerely,

Allen Gilliam
ADEQ State Pretreatment Coordinator
