Subject: AR0051951_Conways April 2014 annual Pretreatment report with ADEQ reply_20140509
Attachments: Conway's April 2014 Annual Pretreatment Report.pdf; Pretreatment Attachments '14.doc

Trey,

Conway's annual Pretreatment Report was received, reviewed, deemed complete and compliant with the reporting requirements in 40 CFR 403.12(i).

Notes for future reports (see the 2nd attachment above. Save it for future use.):

- 1) Please change the units on Stone Dam's "MAHC" and influent/effluent "WQ Level/Limit" columns to ug/l and adjust the numbers below accordingly;
- 2) Attachment A – if Virco Mfg.-1 has been shut down since '05 it no longer needs to be reported if you are not permitting them;
- 3) Same attachment, indicate each facility's appropriate NAICS code and CFR number (e.g.; CFR 433) and
- 4) the 2nd page of Attachment C, section IV Enforcement Actions, #8 has 1 (I'm assuming) a sewer ban which your report indicates "AGE Ind. has had sewer ban placed on them since Oct. '05, but was reinstated in March '09". I have corrected this to "0" and initialed it (please let me know if this is not the case).

Thank you for your timely report remaining in compliance with the Federal Pretreatment Requirements in 40 CFR 403.

Sincerely,

Allen Gilliam
ADEQ State Pretreatment Coordinator
