Re:    AFIN No.:  53-00041                     State Permit No.:  4625-WR-1

Dear Mr. Johnson:

On April 9, 2007, I performed a routine compliance inspection of your facility in accordance with the provisions of the Arkansas Water and Air Pollution Control Act and the regulations promulgated thereunder. This inspection revealed that your facility is in compliance with the terms of your permit.

Additionally, it was noted that it appeared efforts had been made to connect the car wash to the sanitary sewer. If this is correct, and you will no longer be utilizing the septic system for disposal, please notify the Permits Branch of this change. This change will need to be submitted in writing and your permit can then be terminated.

If I can be of any assistance, please contact me at 479-968-7339.

Sincerely,

Greg Kremers
District 5 Field Inspector
Water Division
