

ADEQ MINOR SOURCE AIR PERMIT

Permit #: 2012-A

IS ISSUED TO:

Aluma-Weld dba Xpress Boats, Inc.
199 Extrusion Place
Hot Springs, AR 71901
Garland County
AFIN: 26-00413

THIS PERMIT IS YOUR AUTHORITY TO CONSTRUCT, MODIFY, OPERATE, AND/OR MAINTAIN THE EQUIPMENT AND/OR FACILITY IN THE MANNER AS SET FORTH IN THE DEPARTMENT'S MINOR SOURCE AIR PERMIT AND YOUR APPLICATION. THIS PERMIT IS ISSUED PURSUANT TO THE PROVISIONS OF THE ARKANSAS WATER AND AIR POLLUTION CONTROL ACT (ARK. CODE ANN. SEC. 8-4-101 ET SEQ.) AND THE REGULATIONS PROMULGATED THEREUNDER, AND IS SUBJECT TO ALL LIMITS AND CONDITIONS CONTAINED HEREIN.

Signed:

Keith A. Michaels

SECTION II: INTRODUCTION

Summary

Xpress Boats, Inc. began manufacturing operations in this location in February 2001. The company manufactures aluminum hull boats in a variety of models. The manufacturing process includes spray painting, application of a non-slip rubber like liner and glue application for installation of carpet.

Process Description

The manufacturing process involves the following unit operations:

Aluminum Cutting & Forming

Aluminum is received in sheets, and stored on premises and used as needed. The aluminum sheets are of various gauge material to be used for specific components of each boat. The sheets are cut into specific shapes and sizes then formed in hydraulic presses to be welded into boat panels.

Aluminum Welding

After forming the boat components, all seams are welded utilizing a GTAW arc welding system with shielding gas (Argon). Fumes are a minimum component and are exhausted to the outside of the building using exhaust fans. Another positive attribute of the GTAW process is that it "is very low fume formation rate (FFR)".

A second welding process is also used; this is the Gas Metal Arc Welding (GMAW) utilizing a consumable electrode and a shielding gas (Argon).

Welding is listed as an insignificant activity.

Aluma-Weld dba Xpress Boats, Inc.
Permit #: 2012-A
AFIN: 26-00413

Paint Preparation

All aluminum surfaces are prepared by wiping with solvent cleaners to remove dirt and grease prior to painting. These emissions become non-stack (general ventilation) emissions and the Permittee has conducted personal monitoring analysis to determine the extent of the releases.

Paint

After preparation, the hulls are moved into one of seven paint booths designated as 4-A, 4-B, 3-A, 3-B, 3-C, 2-A and 2-B. These booths are designated as SN-101 through SN-107. Touch-up and repaint work are performed in a separate booth designated as SN-108A. This booth is also used to apply a liner to the boat deck and is designated as SN-108B. The liner is a two part non-slip rubber coating applied to the aluminum boat decks that do not receive carpeting. The paint booths are conventional closed booths utilizing compressed air to operate paint spray guns. Over spray is collected by roof mounted fans and ducted through paint filters prior to air discharge.

Carpet and Carpet Glue

Carpeting is used in most of the boats and the glue that is used becomes a building ventilation (SN-110, non-stack) emission. After the boat is painted the shell proceeds to the glue area. The glue is applied to all walking surfaces with a pressure spray system. The glue is sprayed directly to the boat surface and the carpet is pressed into place and adhered directly to the glue covered surfaces. All carpet is then trimmed to fit. Over-spray is cleaned by hand wiping with VMP Naphtha.

Liner

The liner is a two part resin coating which dries to a rubber like non-slip surface. It is used to line foot rest and walking surfaces of the boat where carpeting is not installed. The material consists of: Suncoat A-Iso (Diphenyl methane diisocyanate) and Suncoat Poly B Resin

Polyoxypropylendiamine-(PXA)?which has a VOC content of 1.85 lb /gal.

The liner is applied like paint inside the repaint and touch-up booth (SN -108). Emission factors are calculated the same as paint.

Finishing

Aluma-Weld dba Xpress Boats, Inc.
Permit #: 2012-A
AFIN: 26-00413

Paint finishes are baked on in the bake oven (SN-109) at 150⁰ F. The oven is a natural gas fired unit and aids in the rapid curing of the coatings. The bake oven accounts for approximately 5% of the plant emission of organic paint carriers.

Final Product Assembly

After the hulls have been finished, the plant adds the mechanical and electronic components to each unit. This includes steering and cables, fuel deliver systems, electrical wiring, motors (outboard), instrumentation, windshields, and other finish components.

Regulations

The facility is subject to regulation under the *Arkansas Air Pollution Control Code* (Air Code) and the regulations of the *Arkansas Plan of Implementation for Air Pollution Control* (SIP).

The following table is a summary of the facility's total emissions.

TOTAL ALLOWABLE EMISSIONS		
Pollutant	Emission Rates	
	lb/hr	tpy
PM	0.09	0.20
PM ₁₀	0.09	0.20
SO ₂	0.01	0.20
VOC	48.48	20.02
CO	1.02	2.15
Acetone	11.00	2.74
*Ethyl-Benzene	1.17	0.88
*Formaldehyde	0.04	0.02

Aluma-Weld dba Xpress Boats, Inc.

Permit #: 2012-A

AFIN: 26-00413

TOTAL ALLOWABLE EMISSIONS		
Pollutant	Emission Rates	
	lb/hr	tpy
*Hexane	6.45	0.44
*Methyl ethyl ketone (MEK)	1.0	2.31
*Methanol	0.04	0.51
*Methyl isobutyl ketone (MIK)	1.03	0.55
*Toluene	5.0	0.1
*Xylene	3.69	2.53

*Hazardous air pollutants (HAPs) included in VOC total.

SECTION III: PERMIT HISTORY

This permit is being issued for the first time. Xpress Boats Incorporated began manufacturing at this location in February 2001.

Aluma-Weld dba Xpress Boats, Inc.
Permit #: 2012-A
AFIN: 26-00413

SECTION IV: EMISSION UNIT INFORMATION

Specific Conditions

1. Pursuant to §19.501 et seq of the Regulations of the Arkansas Plan of Implementation for Air Pollution Control, effective February 15, 1999 (Regulation 19) and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not exceed the emission rates set forth in the following table.

SN	Description	Pollutant	lb/hr	tpy
101, 102, 103, 104, 105, 106 , 107, 108A 109	Paint line , 4-A, 4-B, 3-A, 3-B ,3-C, 2-A, & 2-B Repaint and Touch up Paint Drying	VOC	16.49	5.20
108B	Liner Application (PXA)	VOC	6.40	4.10
109	Paint Drying Bake Oven	PM SO2	0.09 0.01	0.20 0.02

110	General Ventilation	Ethylbenzene	0.17	0.05

Aluma-Weld dba Xpress Boats, Inc.**Permit #: 2012-A****AFIN: 26-00413**

SN	Description	Pollutant	lb/hr	tpy
	(Non-Stack) Emissions from carpet glue and solvent cleaning	Hexane	6.42	0.44
		Toluene	4.00	0.24
		Xylene	0.69	0.19
		Acetone	11.00	2.55

3. Pursuant to A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, visible emissions shall not exceed the limits specified in the following table of this permit as measured by EPA Reference Method 9.

SN	Limit	Regulatory Citation
109	20%	19.503

4. Pursuant to §18.801 of Regulation 18, and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not cause or permit the emission of air contaminants, including odors or water vapor and including an air contaminant whose emission is not otherwise prohibited by Regulation #18, if the emission of the air contaminant constitutes air pollution within the meaning of A.C.A. §8-4-303.
5. Pursuant to §18.901 of Regulation 18, and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not conduct operations in such a manner as to unnecessarily cause air contaminants and other pollutants to become airborne.

SN-101 through SN-107 Paint Line, SN-108A Repaint and Touch-up, SN-109 Paint Drying Oven

6. Pursuant to §19.705 of Regulation 19 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not use a paint, primer or thinner having a VOC content greater than that listed in the following table. Compliance shall be demonstrated by complying with Specific Condition 7.

Source Number	VOC Content Limit (lb/gal)		
	Paint	Primer	Thinner
SN-101 to SN-107, SN-108A & SN-109	5.13	5.99	7.91

Aluma-Weld dba Xpress Boats, Inc.

Permit #: 2012-A

AFIN: 26-00413

7. Pursuant to §19.705 of Regulation 19 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall maintain VOC records of all paints, primers and thinners used in SN-101 through SN-107, SN-108A and SN-109. The permittee shall maintain monthly records which include the name of each VOC containing material used, the content of VOC in the material in pounds per gallon, and the amount of each VOC containing material used. The permittee shall maintain monthly records to demonstrate compliance with Specific Condition 1 & 6. These records shall include the monthly total of each VOC emitted, the consecutive 12 month total of each VOC emitted, and the consecutive 12 month total of emissions of all combined VOCs emitted. The monthly records shall be updated by the fifteenth day of the month following the month the records represent. These records shall be kept on site, and shall be made available to Department personnel upon request.
8. Pursuant to §18.1004 of Regulation 18 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not use a paint, primer or thinner having a HAP content greater than that listed in the following table. Compliance shall be demonstrated by complying with Specific Condition 9.

Source Number	HAP	HAP Content Limit (lb/gal),		
		Paint	Primer	Thinner
SN-101 to SN-107, SN-108A & SN-109	Methyl Ethyl Ketone	0.80	-	1.23
	Methyl Isobutyl	1.19	-	-
	Ketone	0.60	0.60	0.36
	Toluene	2.06	0.30	6.84
	Xylene	0.51	0.30	1.08
	Ethyl Benzene			

9. Pursuant to §18.1004 of Regulation 18 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall maintain records of HAPs emissions. The permittee shall maintain monthly records which include the name of each HAP containing material used in SN-101 thru SN-107, SN-108A and SN-109, the content of each HAP in the material in pounds per gallon, and the amount of each HAP containing material used. The permittee shall maintain monthly records to demonstrate compliance with Specific Conditions 2 & 8. The records shall include the monthly total of each HAP emitted, the consecutive 12 month total of each HAP emitted, and the consecutive 12 month total of emissions of all HAPs combined. The monthly records shall be updated by the fifteenth day of the month following the month the records represent. These records shall be kept on site, and shall be made available to Department personnel upon request.

SN-108B: Liner Application

Aluma-Weld dba Xpress Boats, Inc.

Permit #: 2012-A

AFIN: 26-00413

10. Pursuant to §19.705 of Regulation 19 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not use a two part resin coating having a total VOC content greater than 1.85 lbs/gal. The coating is used as a liner material for the walking surface of the boat. Compliance shall be demonstrated by complying with Specific Condition 11.
11. Pursuant to §19.705 of Regulation 19 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall maintain monthly records which demonstrate compliance with annual VOC emissions in Specific Conditions 1 & 10. Records shall be updated by the fifteenth day of the month following the month to which the records pertain. A twelve month rolling total and each individual months data shall be kept on site. These records shall be kept on site, and shall be made available to Department personnel upon request.

SN-109 Paint Drying Bake Oven-Natural Gas Combustion

12. Pursuant to §19.705 of Regulation 19 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not use more than 11,000,000 cu ft of 1000 BTU/cu ft natural gas at the facility per consecutive 12 month period. Compliance shall be demonstrated by complying with Specific Condition 13.
13. Pursuant to §19.705 of Regulation 19 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall maintain monthly records which demonstrate compliance with Specific Conditions 1 & 12. Records shall be updated by the fifteenth day of the month following the month to which the records pertain. These records shall be kept on site, and shall be made available to Department personnel upon request.

SN-110 Building, Non-Stack Emissions (General Ventilation)-Carpet Glue and Surface Preparation (Solvent Cleaning)

14. Pursuant to §19.705 of Regulation 19 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not use a carpet glue in SN-110 having a VOC content greater than 6.7 lb/gal. Compliance shall be demonstrated by complying with Specific Condition 16.
15. Pursuant to §19.705 of Regulation 19 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not use a solvent cleaner for surface preparation in SN-110 having a VOC content greater than 7.1 lb/gal.. Compliance shall be demonstrated by complying with Specific Condition 16
16. Pursuant to §19.705 of Regulation 19 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall maintain monthly records which demonstrate compliance with annual VOC emissions in Specific Conditions 1, and VOC content in Specific Conditions 14 & 15. Records shall be updated by the fifteenth day of the month following the month to

Aluma-Weld dba Xpress Boats, Inc.

Permit #: 2012-A

AFIN: 26-00413

which the records pertain. A twelve month rolling total and each individual months data shall be kept on site. These records shall be kept on site, and shall be made available to Department personnel upon request.

17. Pursuant to §18.1004 of Regulation 18 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not use a carpet glue having a HAP content greater than that listed in the following table. Compliance shall be demonstrated by complying with Specific Condition 18.

Source Number	HAP	HAP Content Limit (lb/gal),
SN-110 (Carpet Glue)	Hexane	1.86
	Toluene	1.20

4. Pursuant to §18.1004 of Regulation 18 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall maintain records of HAP emissions. The permittee shall maintain monthly records which include the name of each HAP containing material used in SN-110, the content of each HAP in the material in pounds per gallon, and the amount of each HAP containing material used. The permittee shall maintain monthly records to show compliance with Specific Conditions 2 & 17. The records shall include the monthly total of each HAP emitted, the consecutive 12 month total of each HAP emitted, and the consecutive 12 month total of emissions of all HAPs combined. The monthly records shall be updated by the fifteenth day of the month following the month the records represent. These records shall be kept on site, and shall be made available to Department personnel upon request.
19. Pursuant to §19.705 of Regulation 19 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall not use more than 2500 gallons of Acetone at the facility per consecutive 12 month period. Compliance shall be demonstrated by complying with Specific Condition 20.
20. Pursuant to §19.705 of Regulation 19 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall maintain monthly records which demonstrate compliance with Specific Condition 19. Records shall be updated by the fifteenth day of the month following the month to which the records pertain. A twelve month rolling total and each individual months data shall be kept on site. These records shall be kept on site, and shall be made available to Department personnel upon request.
21. Pursuant to §18.801 of Regulation 18 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, the permittee shall limit total HAPs emissions to 188 lbs/day, and emissions for any single HAP shall remain below 9.5 tpy and for total HAPs shall remain below 23.75 tpy. Compliance shall be demonstrated by complying with Specific Condition 2, 9 & 18.

Aluma-Weld dba Xpress Boats, Inc.
Permit #: 2012-A
AFIN: 26-00413

SECTION V: INSIGNIFICANT ACTIVITIES

The following types of activities or emissions are deemed insignificant on the basis of size, emission rate, production rate, or activity in accordance with Group A of the Insignificant Activities list found in Regulation 18 and 19 Appendix A. Insignificant activity emission determinations rely upon the information submitted by the permittee in an application dated May 28, 2002.

Group A

One diesel fuel storage tank less than 250 gallons capacity.
One gasoline storage tank less than 150 gallons capacity.
Aluminum Welding.
Paint storage containers 5 gallons in capacity, factory.

Aluma-Weld dba Xpress Boats, Inc.
Permit #: 2012-A
AFIN: 26-00413

SECTION VI: GENERAL CONDITIONS

1. Any terms or conditions included in this permit which specify and reference Arkansas Pollution Control & Ecology Commission Regulation 18 or the Arkansas Water and Air Pollution Control Act (A.C.A. §8-4-101 *et seq.*) as the sole origin of and authority for the terms or conditions are not required under the Clean Air Act or any of its applicable requirements, and are not federally enforceable under the Clean Air Act. Arkansas Pollution Control & Ecology Commission Regulation 18 was adopted pursuant to the Arkansas Water and Air Pollution Control Act (A.C.A. §8-4-101 *et seq.*). Any terms or conditions included in this permit which specify and reference Arkansas Pollution Control & Ecology Commission Regulation 18 or the Arkansas Water and Air Pollution Control Act (A.C.A. §8-4-101 *et seq.*) as the origin of and authority for the terms or conditions are enforceable under this Arkansas statute.
2. Pursuant to A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, this permit shall not relieve the owner or operator of the equipment and/or the facility from compliance with all applicable provisions of the Arkansas Water and Air Pollution Control Act and the regulations promulgated thereunder.
3. Pursuant to §19.704 of the Regulations of the Arkansas Plan of Implementation for Air Pollution Control (Regulation 19) and/or A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, the Department shall be notified in writing within thirty (30) days after construction has commenced, construction is complete, the equipment and/or facility is first placed in operation, and the equipment and/or facility first reaches the target production rate.
4. Pursuant to §19.410(B) of Regulation 19 and/or §18.309(B) of the Arkansas Air Pollution Control Code (Regulation 18) and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-

Aluma-Weld dba Xpress Boats, Inc.

Permit #: 2012-A

AFIN: 26-00413

311, construction or modification must commence within eighteen (18) months from the date of permit issuance.

5. Pursuant to §19.705 of Regulation 19 and/or §18.1004 of Regulation 18 and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, records must be kept for five years which will enable the Department to determine compliance with the terms of this permit--such as hours of operation, throughput, upset conditions, and continuous monitoring data. The records may be used, at the discretion of the Department, to determine compliance with the conditions of the permit.

Aluma-Weld dba Xpress Boats, Inc.

6. Pursuant to §19.705 of Regulation 19 and/or §18.1004 of Regulation 18 and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, any reports required by any condition contained in this permit shall be certified by a responsible official and submitted to the Department at the address below.

Arkansas Department of Environmental Quality
Air Division
ATTN: Compliance Inspector Supervisor
Post Office Box 8913
Little Rock, AR 72219
7. Pursuant to §19.702 of Regulation 19 and/or §18.1002 of Regulation 18 and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, any equipment that is to be tested, unless stated in the Specific Conditions of this permit or by any federally regulated requirements, shall be tested with the following time frames: (1) Equipment to be constructed or modified shall be tested within sixty (60) days of achieving the maximum production rate, but in no event later than 180 days after initial start-up of the permitted source or (2) equipment already operating shall be tested according to the time frames set forth by the Department. The permittee shall notify the Department of the scheduled date of compliance testing at least fifteen (15) days in advance of such test. Compliance test results shall be submitted to the Department within thirty (30) days after the completed testing.
8. Pursuant to §19.702 of Regulation 19 and/or §18.1002 of Regulation 18 and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, the permittee shall provide:
 - a. Sampling ports adequate for applicable test methods
 - b. Safe sampling platforms
 - c. Safe access to sampling platforms
 - d. Utilities for sampling and testing equipment
9. Pursuant to §19.303 of Regulation 19 and/or §18.1104 of Regulation 18 and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, the equipment, control apparatus and emission monitoring equipment shall be operated within their design limitations and maintained in good condition at all times.

Aluma-Weld dba Xpress Boats, Inc.

Permit #: 2012-A

AFIN: 26-00413

10. Pursuant to §19.601 of Regulation 19 and/or §18.1101 of Regulation 18 and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, if the permittee exceeds an emission limit established by this permit, they shall be deemed in violation of said permit and shall be subject to enforcement action. The Department may forego enforcement action for emissions exceeding any limits established by this permit provided the following requirements are met:
 - a. The permittee demonstrates to the satisfaction of the Department that the emissions resulted from an equipment malfunction or upset and are not the result of negligence or improper maintenance, and that all reasonable measures have been taken to immediately minimize or eliminate the excess emissions.
 - b. The permittee reports the occurrence or upset or breakdown of equipment (by telephone, facsimile, or overnight delivery) to the Department by the end of the next business day after the occurrence or the discovery of the occurrence.
 - c. The permittee shall submit to the Department, within five business days after the occurrence or the discovery of the occurrence, a full, written report of such occurrence, including a statement of all known causes and of the scheduling and nature of the actions to be taken to minimize or eliminate future occurrences, including, but not limited to, action to reduce the frequency of occurrence of such conditions, to minimize the amount by which said limits are exceeded, and to reduce the length of time for which said limits are exceeded. If the information is included in the initial report, it need not be submitted again.
11. Pursuant to A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, the permittee shall allow representatives of the Department upon the presentation of credentials:
 - a. To enter upon the permittee's premises, or other premises under the control of the permittee, where an air pollutant source is located or in which any records are required to be kept under the terms and conditions of this permit
 - b. To have access to and copy any records required to be kept under the terms and conditions of this permit, or the Act
 - c. To inspect any monitoring equipment or monitoring method required in this permit
 - d. To sample any emission of pollutants
 - e. To perform an operation and maintenance inspection of the permitted source

Aluma-Weld dba Xpress Boats, Inc.

Permit #: 2012-A

AFIN: 26-00413

12. Pursuant to A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, this permit is issued in reliance upon the statements and presentations made in the permit application. The Department has no responsibility for the adequacy or proper functioning of the equipment or control apparatus.
13. Pursuant to §19.410(A) of Regulation 19 and/or §18.309(A) of Regulation 18 and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, this permit shall be subject to revocation or modification when, in the judgment of the Department, such revocation or modification shall become necessary to comply with the applicable provisions of the Arkansas Water and Air Pollution Control Act and the regulations promulgated thereunder.
14. Pursuant to §19.407(B) of Regulation 19 and/or §18.307(B) of Regulation 18 and A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, this permit may be transferred. An applicant for a transfer shall submit a written request for transfer of the permit on a form provided by the Department and submit the disclosure statement required by Arkansas Code Annotated §8-1-106 at least thirty (30) days in advance of the proposed transfer date. The permit will be automatically transferred to the new permittee unless the Department denies the request to transfer within thirty (30) days of the receipt of the disclosure statement. A transfer may be denied on the basis of the information revealed in the disclosure statement or other investigation or, if there is deliberate falsification or omission of relevant information.
15. Pursuant to A.C.A. §8-4-203 as referenced by A.C.A. §8-4-304 and §8-4-311, this permit shall be available for inspection on the premises where the control apparatus is located.
16. Pursuant to A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, this permit authorizes only those pollutant emitting activities addressed herein.
17. Pursuant to Regulation 18 and 19 and A.C.A. §8-4-203 as referenced by §8-4-304 and §8-4-311, this permit supersedes and voids all previously issued air permits for this facility.
