

FINDINGS: The Commission finds that the City of Hot Springs, Arkansas has consistently failed to operate its permitted sanitary landfill in accordance with the Arkansas Solid Waste Disposal Code.

ORDER: Therefore, Permit No. 1587-S, granted to City of Hot Springs, Arkansas on February 15, 1974, is hereby suspended, effective immediately. The City is ordered and directed to forthwith contour the area already filled to allow for drainage and to cover same with intermediate cover. No dumping of waste of any type shall be permitted hereafter.

The site not having been operated for the purposes represented to this Department, the permit will be reinstated only upon the following conditions having been met to the satisfaction of the Director:

1. Installation of fencing and lockable gate, adequate to prevent unauthorized use of the site;
2. Construction of drainage ditches and culverts as indicated by plans already submitted;
3. Submission of a supplemental application detailing types of waste to be handled at the site and daily operational procedure.

If the Director is satisfied that operation of the site as described in the supplemental application will meet the requirements of the Solid Waste Disposal Code, he may reinstate said permit without further action by this Commission.
