

FINDINGS:

A. County Industrial Landfill, Inc. is currently operating a sanitary landfill on property owned by Garland County within the Garland County Industrial Park, pursuant to permit number 1661-S, issued by this Department. Said operation has consistently violated the Code, the Act and the terms of the permit itself, and should not be continued indefinitely.

B. Garland County does not have adequate county-wide collection and disposal of solid wastes, and a comprehensive, county-wide solid waste management system is necessary to accomplish these objectives and meet the purposes of the Act.

ORDER:

1. Pursuant to Ark.Stat.Ann. §82-2706, Garland County is hereby ordered and directed, on or before September 1, 1976, to submit to the Department for its approval detailed plans for a county-wide solid waste management system, which plans shall call for implementation thereof on or before January 1, 1977.

2. Garland County is hereby ordered and directed, on or before June 28, 1976, to provide an interim disposal site or sites to serve residents of the county pending implementation of said system, and to submit reports thereon, to the Department, in such form as the Director may require, and provide other information when and as the Department may require it.

3. County Industrial Landfill, Inc. is hereby ordered and directed, on or before June 28, 1976, to cease operation of the aforesaid landfill, and commence final cover and contours, in accordance with the Code, and its permit number 1661-S is hereby revoked, effective June 28, 1976.
