

ARKANSAS DEPARTMENT OF  
POLLUTION CONTROL AND ECOLOGY

LOCATION - SUBJECT: SOLID WASTE -

PERMITS

MINUTE ORDER NUMBER 77-20

PAGE 1 OF 1 PAGES

Sunray Sanitation #2 (Sanitary Landfill)

Site Location - Seven (7) acres in the east half of the northwest quarter of Section 16, Township 17 North, Range 30 West, in Washington County, Arkansas, approximately two (2) miles southwest of Springdale.

Operation - The site is owned by Mr. Harold Smith and is to be leased and operated by the Sunray Sanitation Company for the disposal of solid waste generated in the Fayetteville-Springdale-Washington County area.

Requirement - A registered professional engineer supervise the necessary pre-operational work and the initial phases of the operation and submit a report to the Department monthly regarding progress made.

A Committee consisting of Williams, Saxton, Easley and Hulsey shall meet with Hightower to review the application and report to the Director their findings. The Director is hereby authorized to issue the permit upon the approval of the Committee.

Date Passed: 1/28/77

Committee Findings February 2, 1977: "It was the unanimous judgment of the Committee that the application for permit by Sunray should be approved with the additional provision that a retention or settling pond be added to the plan at the point on the plans which now showed lateral trenches and a sump. It was the further observation of the members of the Committee that the permit should be issued only with the understanding that the most meticulous care should be taken to prepare the site in a manner equal to or better than that set forth in the plans and specification and that the operation should at all times follow to the letter the regulations set forth by the Pollution Control Commission for the operation of a solid waste disposal facility."
