STAFF RECOMMENDATIONS FOR PRIORITY LIST CHANGES

Two errors in the draft 1978 priority list were noted by the staff at the public hearing.

These were as follows:

- (1) The new list showed Harrisburg in Step II. This should have been Step I.
- (2) Quitman which was on the list approved by the Commission at the January meeting was inadvertently omitted from the present list. It should be added in at the appropriate rank number.

The staff will make these corrections in the list.

In addition the city of Diaz has been in contact with members of the staff. Because of interjurisdictional differences between Diaz and Newport, Diaz is desirous of being placed in an individual position on the list. While the staff still feels joint treatment to be the most cost-effective method, we recommend, in order to expedite the project, that the Newport and Diaz projects be separate and placed in the appropriate position on the list with a grant condition in each Step I grant that joint treatment must be considered in the cost-effectiveness analysis of each study.
