ARKANSAS DEPARTMENT OF
POLLUTION CONTROL AND ECOLOGY

LOCATION - SUBJECT: Permit

MINUTE ORDER NO. 79-2

PAGE 1 OF 1 PAGES

The Commission, having considered the applications of Daiwa Steel Tube Industries of Pine Bluff for air and water permits and having reviewed the staff recommendations and the summary reports, does hereby approve said applications subject to the qualifications listed below:

QUALIFICATIONS:

1. Daiwa Steel will supply information (plans and specifications) which will support the claimed collection efficiency of the final filter in the wastewater system.

2. Daiwa Steel will supply information relative to the quantity and nature of the sludges which will result from the operation of the wastewater system as well as the Company's plans to dispose of those sludges.

3. Daiwa Steel must submit plans for the disposal of sludges and other solid wastes and a Solid Waste Disposal permit must be obtained from the Commission prior to the commencement of the operation of the manufacturing facility.
