ARKANSAS DEPARTMENT OF POLLUTION CONTROL AND ECOLOGY

LOCATION - SUBJECT Regulation for Confined Animal Operations

MINUTE ORDER NO. 79- 43

PAGE 1 of 1 PAGES

A significant portion of the complaints received by the Department staff concern confined feedlot operations, particularly swine, cattle and poultry operations.

The Department staff proposes to develop rules and regulations pertaining to the design, operation and maintenance of all confined animal operations to establish more clarity and uniformity in requirements and to provide information to the operators of these facilities that will assist them in alleviating the problems that are presently occurring.

By this minute order the Commission authorizes the staff to proceed in development of such rules and regulations.
