

On July 8, 1980 a field trip was conducted by the Mined Land Review Committee to 11 acres covered by Permit Number 115 issued to Carter Oil Company. The Committee came to an unanimous agreement that Carter Oil Company has fulfilled the reclamation requirements of Act 236. Therefore, the Mined Land Review Committee and this Department recommend that the Commission release the surety.

Based upon the above and attached information, the Commission hereby approves the recommendation.

Gillette, Wyoming 82716

Dear Mr. Quenon:

Your Permit No. 115 for your 11 acre mine site in Section 2, Township 10 South, Range 17 West in Dallas County has expired.

This mine was permitted under Act 236 of 1971 which allows two years beyond the expiration date for reclamation. However, since your permit expired on August 1, 1977, it has been well over two years and this Agency should be informed of your intentions regarding this mine.

If you think this property is reclaimed, please submit in a letter to me your request for release of surety bond and responsibility on these 11 acres.

Yours truly,

Gene Newsom

MEMORANDUM

TO: Mined Land Review Committee
FROM: Gene Newsom, Geologist II
DATE: July 8, 1980
SUBJECT: Request for release of surety bond on the 11 acre New Hope Pit covered by Permit No. 115 and held by the Carter Oil Company of Gillette, Wyoming

On the basis of information presented and a field trip to the mine, the Mined Land Review Committee is in unanimous agreement that The Carter Oil Company has reclaimed this property in accordance with Act 236 of 1971 and release of surety bond is recommended.
