

ARKANSAS DEPARTMENT OF POLLUTION CONTROL AND ECOLOGY
SURFACE MINING AND RECLAMATION DIVISION

INTEROFFICE MEMORANDUM

TO: Floyd G. Durham, Acting Chief
FROM: M.J. Bonner, Reclamation Geologist
DATE: July 14, 1980
SUBJECT: Request by Great National Corporation - Nevada by letter of
June 15, 1980 for release of surety on 5 acre permit number 121
on the basis of no intention to mine.

A field trip was made on this date to determine the status of this permitted area. This inspection verified that the permit area has not been affected by Great National Corporation - Nevada in any manner by mining. Due to this status, it was decided that the Mined Land Review Committee should not be involved in a formal field trip for this approval on release of surety.

Mr. Floyd Durham
Chief Engineer
Surface Mining Reclamation Section
Arkansas Department of Pollution
Control and Ecology
8405 Stanton Road
Little Rock, Arkansas 72209

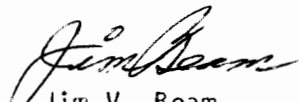

Dear Floyd:

Per our telephone conversation, Great National Corporation hereby request that Open Cut Mining Permit Number 121, issued on 7 April 1977 for the purpose of a test pit, be cancelled. This test pit permit covered 5 acres located in a portion of Sections 28 and 33, T7N, R31W, Sebastian County, Arkansas.

Due to postponement and then a change of plans this test pit was never opened nor any surface disturbance made. After this permit has been cancelled please return our Certificate of Deposit No. 13322 dated 4/1/77 in amount of \$2,500.00, which we posted for for reclamation bond purposes.

Very truly yours,

GREAT NATIONAL CORPORATION - NEVADA

Jim V. Beam
