DIVISION OF AIR POLLUTION CONTROL

SUMMARY REPORT RELATIVE TO PERMIT APPLICATION

SUBMITTED BY Central Ready Mix, Incorporated

Mountain Home

CSN 030022 CASE REFERENCES

FIRST SUBMITTAL 9-5-80 AMENDED

SUMMARY:

Central Ready Mix proposes the construction of a facility to control all dust emission from their ready mix concrete operation.

The facility will consist of a shroud to catch the cement dust from the loading operations, appropriate piping, and a large dust collector. The large dust collector will replace the existing collector on top of their storage bins. Estimated emissions will only be a trace from the baghouse.

ESTIMATED COST: \$ 15,000 TOTAL PROJECT: \$ 15,000
