PAGE 1 of 1 PAGES

R & S Coal Company has requested reduction of surety on Permit #133.

A field trip was conducted on March 20, 1981 by the Mined Land Review Committee and staff of the Department of Pollution Control and Ecology to inspect the final reclamation effort for ten (10) acres covered by permit #133.

It was determined and agreed upon by the Mined Land Review Committee and the Department that the requirements of Act 236 have been adequately satisfied.

Therefore, it is recommended that the operator's request be approved.

MEMORANDUM

TO: Mined Land Review Committee Members
FROM: ^{M.J.B. by} M.J. Bonner, Reclamation Geologist
DATE: March 23, 1981
SUBJECT: REQUEST BY R & S COAL COMPANY FOR REDUCTION OF SURETY ON
PERMIT #117 and #133

A field trip was conducted on March 20, 1981 by the Mined Land Review Committee and the Department to the two permit areas for the purpose of final inspection. The requirements of Act 236 have been adequately satisfied for permit #117 covering five (5) acres and #133 issued for ten (10) acres.

It was determined and agreed upon by the Mined Land Review Committee and the Department that this operator's efforts should be approved for full reduction of surety on each of these permits.
