ARKANSAS DEPARTMENT OF POLLUTION CONTROL AND ECOLOGY

MINING AND RECLAMATION DIVISION

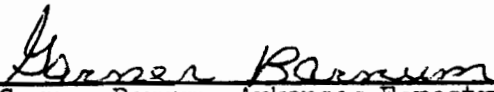

MEMORANDUM

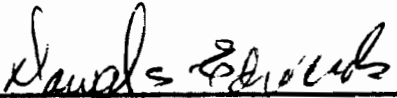

TO: Floyd G. Durham, Chief, Mining and Reclamation  
FROM: Milton J. Bonner, Reclamation Geologist  
DATE: May 5, 1981  
SUBJECT: Request by Crown Construction Company for a 60% reduction of surety, based upon having completed blading and dressing of new surface to approximate original contour as established in variances on permit #76A-2. Area of permit is 28.03 acres.

A field trip was conducted on the above date by the Department and the Mined Land Review Committee for evaluation of the final surface. The consensus of the Committee is that Crown Construction Company has satisfied the variances and the Federal reclamation requirements regarding the final surface.

It is recommended that the operator's request for 60% reduction of surety be approved. Total surety for this permit is \$23,000 of which the 60% reduction would amount to \$13,800.
