

The Commission hereby approves the permit applications submitted by the following firms, subject to the provisions of the Solid Waste Management Act, the Solid Waste Management Code, and the permit terms and conditions.

Great Lakes Chemical Corporation

Name of Facility - Great Lakes Chemical Corporation - El Dorado Sanitary Landfill

Additional Conditions - This permit shall expire when the approximate 12 acre disposal area described in the final engineering plans has been filled to design capacity. Proper preparation of the site shall be supervised and reported in writing to the Department by a Registered Professional Engineer prior to placement of any waste in the landfill. Waste to be deposited in this facility shall consist of the non-hazardous wastes listed in the engineering narrative only.

Nekoosa Papers, Inc

Name of Facility - Nekoosa Lime Waste and Slaker Rejects Landfill

Additional Conditions - This permit shall expire when the approximate 13 acre disposal area described in the final engineering plans has been filled to design capacity. Proper preparation of the site shall be supervised and reported in writing to the Department by a Registered Professional Engineer prior to placement of any waste in the landfill. Daily cover requirements are not required. Placement of final cover will be yearly. Applicant will notify this office in writing when this cover is in place. Waste to be deposited in this facility shall consist of the lime and slaker rejects material as described in the narrative.

W. D. Goolsby

Name of Facility - Goolsby Landfill

Additional Conditions - This permit shall expire when the approximate 17 acre disposal area described in the final engineering plans has been filled to design capacity. Proper preparation of the site shall be supervised and reported in writing to the Department by a Registered Professional Engineer prior to placement of any waste in the landfill. Material to be deposited in this facility shall consist of the non-putrescible wastes described in the narrative only. The permit will not become effective until the permittee obtains a lease agreement or ownership of the property on which the disposal site is located.

Nekoosa Papers, Inc.

Name of Facility - Nekoosa Mill Trash Sanitary Landfill

Additional Conditions - This permit shall expire when the approximate 15 acre disposal area described in the final engineering plans has been filled to design capacity. Proper preparation of the site shall be supervised and reported in writing to the Department by a Registered Professional Engineer prior to placement of any waste in the landfill. Waste to be deposited in this facility shall consist of the paper waste as described in the narrative. The previous disposal site occupying this area will be closed out according to the submitted plans and narrative before this site can be utilized. Waste is to be compacted daily and covered with 6" of acceptable clay weekly. District field inspector will require daily cover if adverse conditions develop from this practice. Surfaces that will not receive an additional depth of refuse or final cover within 60 days will be covered with a one (1) foot layer of clay.

City of Hughes

Name of Facility - Hughes Sanitary Landfill

Additional Conditions - This permit shall expire when the approximate 9 acre disposal area described in the final engineering plans has been filled to design capacity. Proper preparation of the site shall be supervised and reported in writing to the Department by a Registered Professional Engineer prior to placement of any waste in the landfill. Excavation depth shall not exceed 7'. If any permeable zones are encountered above this depth, the trench shall be backfilled with 2' of compacted clay before any waste is deposited.

PERMIT APPLICATION SUMMARY

1. Name of Applicant Great Lakes Chemical Corp. Address P.O. Box 1878
El Dorado, Arkansas 71730
2. Name of Facility Great Lakes Chemical Corporation - El Dorado Sanitary Landfill
3. Engineer/Firm Bill Gaunt/Renshaw & Associates Address Mehlburger, Tanner 107 N. Jackson
El Dorado, Arkansas 71730
4. Application Date Pre-application - 11/24/80; Application - 4/24/81
5. Site Location One mile SW of the El Dorado city limits and 3,000 feet west of State
Highway 15. E $\frac{1}{4}$, NW $\frac{1}{4}$, SW $\frac{1}{4}$, W $\frac{1}{2}$ of NE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 1, T18S, R16W, 12 acres in Union
County.
6. Operation Trench fill.
7. Residences Within $\frac{1}{2}$ Mile Five residence within $\frac{1}{2}$ mile.
8. Water Supplies Within Vicinity $\frac{1}{4}$ mile to GLCC water well. $\frac{1}{2}$ mile to residential
water wells.
9. Soils/Groundwater Minimum depth to water table is 13 feet as determined by
Southwestern Laboratories, Little Rock, Arkansas.
10. Drainage Sequence 1 mile through intermittent streams to Bayou de Loutre
and eventually into the Quachita River.
11. Hearing Date 5/26/81 Dept. Represented 4 Remarks See attached
memo.
12. Recommended Additional Permit Provisions NOTE ADDITIONAL CONDITIONS ON ATTACHED
SHEET.
13. Summary Comments This facility is for non-hazardous waste only. It replaces a
one-trench permitted operation that is filled to design capacity.
- Approval Recommended Yes Engineer Mark Witherspoon Date 6/1/81

Permit No. S-0180

GLCC - EL DORADO - SANITARY LANDFILL
EL DORADO, ARKANSAS

12. ADDITIONAL CONDITIONS

- (1) This permit shall expire when the approximate 12 acre disposal area described in the final engineering plans has been filled to design capacity.
- (2) Proper preparation of the site shall be supervised and reported in writing to the Department by a Registered Professional Engineer prior to placement of any waste in the landfill.
- (3) Waste to be deposited in this facility shall consist of the non-hazardous wastes listed in the engineering narrative only.
- (4) As an adjunct to the additional conditions listed above, the permittee is reminded that the provisions of Condition #1 of this permit shall also be satisfied in the construction, operation, and maintenance of the landfill.

MEMORANDUM

TO: Permits Files - Commissioners
FROM: Mark Witherspoon, Permits Engineer *MW*
DATE: June 1, 1981
SUBJECT: Public Hearing on Proposed Great Lakes Chemical Corporation
Non-hazardous Waste Sanitary Landfill

The above hearing was conducted on May 26, 1981 at the Union County Courthouse in El Dorado at 7:00 p.m. Department staff attending this meeting were Mark Witherspoon, Tony Morris, Jim Bearden, and Ed Holland. Seventeen others attended the meeting including 6 representatives of GLCC and 3 members of the local media.

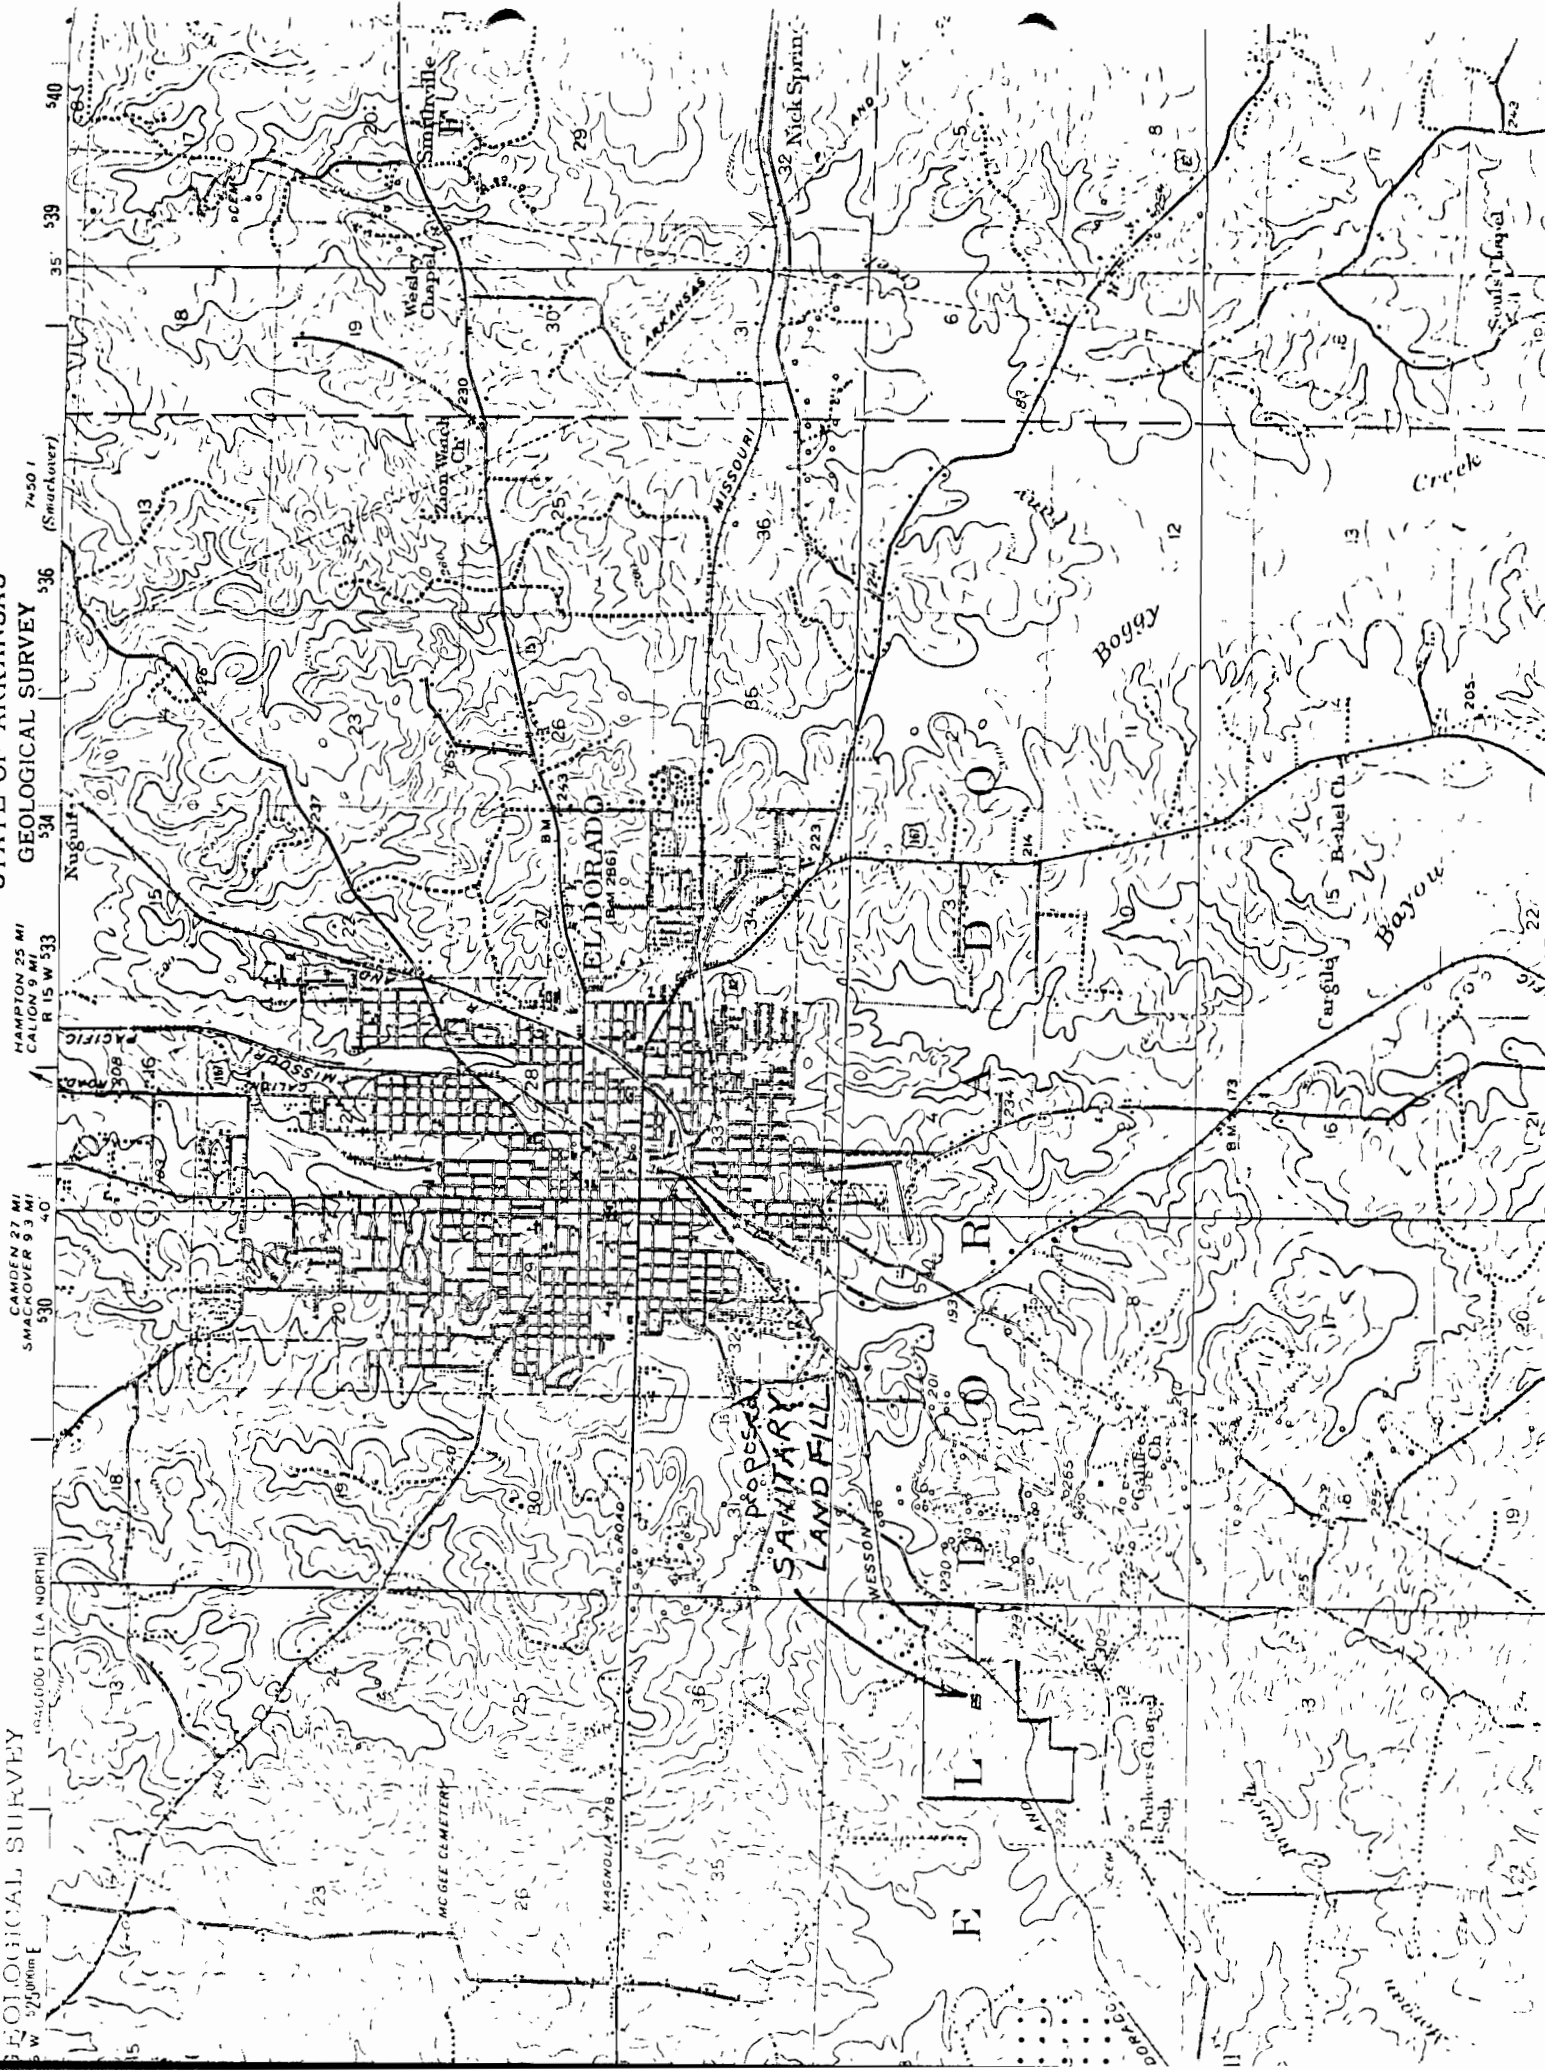

The only comments received were concerning hazardous waste. The Department staff reiterated that this hearing was for the proposed non-hazardous waste facility only.

The original tape will be available until after the July, 1981 Commission meeting.

ARKANSAS DEPARTMENT OF POLLUTION CONTROL AND ECOLOGY

MEMORANDUM

TO: Solid Waste Files - Commissioners
FROM: Mark Witherspoon, Permits Engineer
DATE: July 8, 1981
SUBJECT: Public Hearing for Proposed Goolsby SLF Near Blytheville

Jim Bearden, Tony Morris, and I attended the above hearing as advertised, on June 30, 1981.

Public attendance numbered 36 including Mr. Goolsby and his engineer, John Archer.

Concerns expressed at the hearing were mainly directed at littering the highway and damage to the highway due to trucks. Staff answered questions concerning enforcement and permit procedures. Most fears were relieved when the type of waste to be deposited in the site was explained.

Minimal opposition to this siting.

PERMIT APPLICATION SUMMARY

1. Name of Applicant Nekoosa Papers, Inc. Address P.O. Box 496
Ashdown, Arkansas 71822
2. Name of Facility Nekoosa Lime Waste and Slaker Rejects Landfill
3. Engineer/Firm Ronnie Hall/Garver & Garver Address P.O. Box C-50
Little Rock, Arkansas 72203
4. Application Date Pre-application 1/10/81; Application 4/24/81
5. Site Location On plant property 2 miles south of Ashdown, off Highway 71;
specifically, a part of SE $\frac{1}{4}$ of SE $\frac{1}{4}$ Section 8 & NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 17, T13S, R29W in
Little River County. (13 acres)
6. Operation Modified area fill
7. Residences Within $\frac{1}{2}$ Mile Nearest residence 2000 feet. Less than 10 total
residences within $\frac{1}{2}$ mile.
8. Water Supplies Within Vicinity 2000 feet to plant water well. Nearest residents
(2000') have water wells.
9. Soils/Groundwater Depth of minimum water table is 45 feet as determined by
Southwestern Laboratories.
10. Drainage Sequence Site is completely surrounded by interceptor ditches that
divert surface water into plant water treatment system.
11. Hearing Date _____ Dept. Represented _____ Remarks _____
12. Recommended Additional Permit Provisions NOTE ADDITIONAL CONDITIONS ON ATTACHED
SHEET.
13. Summary Comments Lime and Slaker Rejects are wastes generated in the process of
paper manufacturing. They have been tested and are shown to be non-hazardous.
A variance in the daily cover requirement is recommended due to the construction
of the diversion ditches that channel all runoff into the plant treatment system
and due to the existance of tight clay under the site.
- Approval Recommended Yes Engineer Mark Witherspoon Date 7/7/81

Permit No. S-0185

NEKOOSA PAPERS, INC.
Ashdown, Arkansas

12. ADDITIONAL CONDITIONS

- (1). This permit shall expire when the approximate 13 acre disposal area described in the final engineering plans has been filled to design capacity.
- (2). Proper preparation of the site shall be supervised and reported in writing to the Department by a Registered Professional Engineer prior to placement of any waste in the landfill.
- (3). Daily cover requirements are not required. Placement of final cover will be yearly. Applicant will notify this office in writing when this cover is in place.
- (4). As an adjunct to the additional conditions listed above, the permittee is reminded that the provisions of Condition #1 of this permit shall also be satisfied in the construction, operation, and maintenance of the landfill.
- (5). Waste to be deposited in this facility shall consist of the lime and slaker rejects material as described in the narrative.

APPLICATION
SOLID WASTE DISPOSAL PERMIT
(Sanitary Landfill)
LIME WASTE AND SLAKE REJECTS LANDFILL

Lime Waste

The undersigned is a registered professional engineer with the state of Arkansas. A permit will be issued following submission and approval of engineering plans and specifications in accordance with the Arkansas Solid Waste Disposal Code.

1. Applicant's name Nekoosa Papers, Inc. Phone No. 501-898-2711
Address P. O. Box 496, Ashdown, Arkansas 71822
2. Engineer's name Garver & Garver, Inc. Phone No. 376-3633
Address P. O. Box C-50, Little Rock, Arkansas 72203
3. Legal description and acreage A portion of SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 8 and NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 17, Township 13 South, Range 29 West, Little River acres 13
County, Arkansas
4. Total area of site to be used as a sanitary landfill 13 acres.
5. Land is to be leased _____, rented _____, owned X. (If land is to be rented or leased, a copy of rental or lease agreement will be provided in narrative portion of plans.)
6. Present land use surrounding site Unimproved and vacant on the west side and north side, sludge landfill on the south side, and paper mill on the east side.
7. Distance from nearest public road 1 mile and nature of access road present or planned all weather gravel
8. Distance to nearest residence 2000 feet
9. Distance to nearest water well 2000 feet
10. Distance to nearest lake or stream $\frac{1}{2}$ mile Name Hudson Creek
11. Soil profile description, including depth of soil, wetness, permeability, and soil texture. Include a statement about any evident limitations or hazards such as flooding, character of bedrock, if known, permeable substrate or other factor. This information should be obtained from the Soil Conservation Service or other reliable source (attach copy of report).
12. Depth of minimum water table 45 feet. Determined by Southwestern Laboratories (responsible authority).

13. Type of operation: Trench fill _____ Area fill X or Combination _____.

14. Types, quantities, and sources of materials to be disposed of:

<u>Type</u>	<u>Quantity</u>	<u>Source</u>
Residential/ Commercial	<u>None</u>	_____
Industrial	<u>15 cubic yards per day</u>	<u>Nekoosa Papers, Inc.</u>
Other	<u>None</u>	_____

NOTE: No hazardous wastes, sewage solids or liquids, septic tank pumpings, or other liquids are allowed to be disposed of at a sanitary landfill without written approval from the Department. Any landfill intended for these wastes may required a special permit.

15. Procedures for prevention of unauthorized use of the site Access to site only through plant area. Public access into the plant area is not allowed. Access to the plant is controlled by guards.

16. The proposed use of the site upon termination of the disposal operation Vacant Site

17. Type collection service provided or planned Direct haul from manufacturer area to landfill site by Nekoosa, Inc. personnel and equipment.

18. What city/county ordinance control solid waste collection/disposal in the area served by the proposed landfill? none

REMARKS: Applicant request waiver of daily cover and application of
Final Cover as each of the designated areas is completed to final elevations.

PUBLIC NOTICE

The Arkansas Commission on Pollution Control and Ecology, in accordance with Act 826 of 1981, being an amendment to Subdivision 8 of Section 3 of Part I of the Arkansas Water and Air Pollution Control Act of 1949, as amended, issues the following notice of applications being received by the Department of Pollution Control and Ecology:

Nekoosa Papers, Inc., of P. O. Box 496, Ashdown, Arkansas 71822, submitted applications to construct and operate two sanitary landfills on property owned by the company in Little River County, both proposed sites being located about a mile south of Ashdown near U. S. Highway 71.

One application requests the use of 13 acres of land for landfill disposal of approximately 15 cubic yards of lime wastes per day from Nekoosa's wood products plant near Ashdown. This plot is further described as follows: A portion of Southwest $\frac{1}{4}$, Southwest $\frac{1}{4}$, Section 8 and Northeast $\frac{1}{4}$, Northeast $\frac{1}{4}$ Section 17, Township 13 South, Range 29 West, Little River County, Arkansas.

Another 15-acre plot is proposed for landfill disposal of approximately 85 cubic yards of mill trash per day from the company's plant. This property is described as follows: Part of the East $\frac{1}{4}$, Northeast $\frac{1}{4}$, Northeast $\frac{1}{4}$ Section 17, and part of West $\frac{1}{4}$, Northwest $\frac{1}{4}$, Northwest $\frac{1}{4}$ Section 16, Township 13 South, Range 29 West, Little River County, Arkansas. Nekoosa plans to use its own trucks to haul the wastes.

Interested party may request a public hearing on either or both of these sanitary landfills. Interested parties must submit written

INTEROFFICE MEMORANDUM

TO: John Hard, Permits Division
FROM: *J. Bearden* Jim Bearden, Solid Waste Management Division
DATE: July 20, 1981
SUBJECT: PERMIT APPLICATION - CITY OF HUGHES, ARKANSAS

This will advise you that in accordance with Act 826 of 1981, there has been no responses, either written or oral concerning request for a public hearing on the above subject at the close of business (5:00 PM), Monday, July 20, 1981.

Therefore, procedures to place this application on the Commission agenda, July 24th, for consideration for permitting should be initiated.

PUBLIC NOTICE

The Arkansas Commission on Pollution Control and Ecology, in accordance with Act 826 of 1981, being an amendment to Subdivision 8 of Section 3 of Part I of the Arkansas Water and Air Pollution Control Act of 1949, as amended, issues the following notice of application being received by the Department of Pollution Control and Ecology:

The City of Hughes, Arkansas, has submitted an application to build and operate a sanitary landfill on 80 acres of land owned by the city. The property is located about a mile southwest of the city in St. Francis County, and is further described as follows: A part of the Southwest $\frac{1}{4}$ of Section 21, Township 4 North, Range 6 East. The city plans to dispose of about 25 cubic yards of residential and commercial wastes and about four (4) cubic yards of wood wastes from a picture frame factory per day at the facility. No hazardous waste would be taken to the proposed landfill.

Any interested party may request a public hearing on the permit application for this sanitary landfill. Interested parties must submit written requests to the following addressee: Jim Bearden, Solid Waste Hearing Officer, Department of Pollution Control and Ecology, 8001 National Drive, P. O. Box 9583, Little Rock, AR 72219. If five (5) such requests are received by the Hearing Officer, or at the Department, on or before 5:00 p.m., July 20, 1981, a public hearing will be scheduled and notice will be given in accordance with state law.

Dated this 9th day of July, 1981

Jarrell E. Southall, Director
Department of Pollution Control
and Ecology
