

MINUTE ORDER NO. 81-71

System and List  
PAGE 1 OF 1

The staff has reviewed the transcript of the public hearing on the FY82 Construction Grants Priority List and Priority Ranking System held on June 24, 1981.

Based on that review, the staff is recommending the following changes:

- 1) Eureka Springs Step 3 be added to the fundable portion of the Small Community List.
- 2) Lake Village's category in the priority system be changed from Category 4 to Category 1 with a resultant increase in priority points. This will move their Step 2 onto the fundable portion of the Small Community List.
- 3) London Step 2 and Step 3 have been removed from the list at their request.
- 4) All other changes are the result of updated dollar figures or target dates. This information was received during the hearing comment period.

By this Minute Order, the Commission on Pollution Control and Ecology approves the FY82 Priority List and System as presented at the public hearing but with the incorporation of the staff recommendations made above.
