A RESOLUTION

BE IT RESOLVED that the members of the Commission on Pollution Control and Ecology, State of Arkansas, do hereby add their strong endorsement of the plans contained in House Document 308, 74th Congress, for a proposed study of the uses of water from the Arkansas River and its tributaries for municipal, industrial, agricultural, and other beneficial purposes.

BE IT FURTHER RESOLVED that this Commission supports funding levels, as contained in the Energy and Water Appropriation Bill (HR 7145), for this study.

In support of these resolutions, the members of the Commission on Pollution Control and Ecology affix their signatures.

Dated this 19th day of November, 1982.
