

MINUTE ORDER NO. 84-108

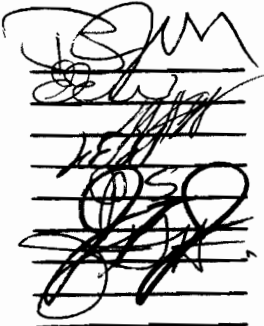

United Sanitation Permit No. 214-S  
PAGE 1 OF 1

The Commission upon review of the record in this matter finds:

1. The site in question is suitable geologically and hydrologically for use as a sanitary landfill.
2. The engineering plan for the proposed operation is adequate and in accordance with the requirements of the Solid Waste Disposal Code.
3. All other requirements for the application have been complied with.

Therefore, the Commission does hereby approve the issuance of this permit.
