

II. Effluent loadings are restricted to a wasteload allocation that does not allow facility's discharge into a seasonal fishery habitat.

III. A list of cities to be included for the following cities:

1. Jonesboro, Arkansas, from a land application system.

2. Morrilton, Arkansas, from Paragon Road to the Little Missouri River.

3. Norcross, Arkansas, from Little Creek to the Arkansas River.

4. Vanhook, Arkansas, to either retain it's current treatment system, Upper Hardy Bayou, or to change to the treatment system.

5. Wilcox, Arkansas, from Branch Creek to the Saline River.

IV. The list of cities to be added to the list of towns to be included are:

- 1. Yellville
- 2. ...
- 3. ...

V. The Commission will instruct the Cities of Rogers and Springdale to incorporate phosphorous removal into their facility plans with the understanding that they will not be required to construct and operate said equipment until this Commission has conclusive evidence to support the requirement of phosphorous removal from their effluents. Furthermore, the Arkansas Pollution Control and Ecology Commission would like to stress the urgency it feels in resolving this phosphorous removal question and would urge the EPA to make this one of the primary objectives of their proposed nutrient loading study of the Illinois River Basin.
