

On April 9, 1985, the Commission held a public hearing pursuant to notice properly given to hear public comments on proposed amendments to the Arkansas Hazardous Waste Management Code. The amendments to Section 3 (a) are necessary for the Arkansas Department of Pollution Control and Ecology to maintain its final authorization to operate a hazardous waste management program in Arkansas in lieu of the federal government.

The amendments adopt by reference the federal regulations on hazardous waste promulgated from May 18, 1984 through January 14, 1985. A summary of the amendments is attached.

Favorable comments were received from the general public. The staff therefore recommends and the Commission hereby approves the adoption of the attached amendments.

The Commission hereby orders that the amendments adopted on this date shall be in full force and effect beginning on May 24, 1985.
