

MINUTE ORDER NO. 88-16

FOR VARIANCE
PAGE 1 OF 1

A Petition for Variance was filed on June 17, 1988 by Nekoosa Papers, Inc. of Ashdown, Arkansas requesting the approval of a variance which would allow an increase in the TRS emission limit. The present TRS limit of 5 ppm is required by Federal regulations, and as such the Commission is without jurisdiction to grant a variance from the Federal regulations. Therefore, the Petition for Variance is hereby denied.

COMMISSIONERS

A series of horizontal lines with handwritten signatures written over them, representing the signatures of the commissioners.
