

MINUTE ORDER NO. 91-06

Emergency Amendment Regulation No. 10
PAGE 1 OF 1

The City of Little Rock has entered into an agreement for a 7-million dollar loan for Phase 1 of a 24-million dollar 8-year sewer rehabilitation project. The City is now preparing documents for application for a 6-million dollar loan from the Fund for Phase 2 of the project.

The City of Hot Springs has also entered into an agreement for an 18-million dollar loan for a 3-year sewer rehabilitation project.

Section 3-400 of ADPC&E Regulation No. 10 requires review and certification of 14 items by the Construction Assistance Division prior to submitting the loan agreement to the Director. The Cities of Little Rock and Hot Springs are requesting an amendment to this Regulation to ensure the current bond rating of the Cities as a matter of public interest and requests a waiver of the public notice requirement in accordance with ADPC&E Regulation No. 8, Part II, Section 2, (h), Rulemaking.

The loan agreements will allow the Cities to receive funds for documented engineering costs during the planning and design phase. Construction funds will only be disbursed after the requirements of Section 3-400 have been satisfied.

After review by the Commission this amendment is considered minor and is hereby granted. A Public Notice of Emergency Rulemaking shall be issued as soon as practical in accordance with Regulation No. 8.
