

ARKANSAS DEPARTMENT OF POLLUTION
CONTROL & ECOLOGY

LOCATION - SUBJECT Wilbourn's Motion
on September 27, 1991 for qualified
consultant to review Arkansas
Proteins and P Street Sewage in
Fort Smith, AR

MINUTE ORDER NO. 91- 47

PAGE 1 OF 1

That the Arkansas Pollution Control and Ecology Commission ("Commission") require Arkansas Proteins to bring in a qualified consultant approved by the Arkansas Department of Pollution Control and Ecology to review its procedures and operating practices for the purpose of determining if the plant is being operated in a manner consistent with its permit conditions.

This directive is to be effective upon the securing of an agreement with the City of Fort Smith, Arkansas, to conduct the same review by the same reviewer at the same time on the P Street Sewage Treatment Plant with the City of Fort Smith to bear one-half the cost with Arkansas Proteins bearing the other half.

When the review is completed, it will be presented to the Commission by the reviewer and immediately made available to the public and to the news media serving the City of Fort Smith, Arkansas.
