

**ARKANSAS DEPARTMENT OF
POLLUTION CONTROL & ECOLOGY**

LOCATION-SUBJECT:
The Solid Waste Management and Recycling
Grant Requirements for Grant Round Number 3.

MINUTE ORDER NO. 93-50

Request for Amended Revision Page 1 of 1

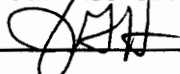

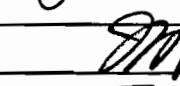

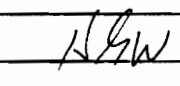

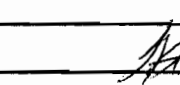

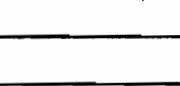

WHEREAS, the Arkansas General Assembly of 1991 and 1992 promulgated the Solid Waste Management and Recycling Fund Act, Arkansas Code Annotated (A.C.A.) §8-6-601 et seq., (Act 934 of 1989, as amended by Acts 749, 751, 754 and 755 of 1991); A.C.A. §8-6-701 et seq. (Act 870 of 1989, as amended by Act 752 of 1991) to develop and implement an annual solid waste management planning and recycling grants program.

WHEREAS, under A.C.A. §8-6-601 et seq, the Department of Pollution Control and Ecology was given the authority to develop grant requirements necessary to implement the purposes and intent and to provide revisions as needed, as presented herein. Such grant requirements were originally promulgated on January 25, 1991, for grant round number one, updated on April 24, 1992, for grant round number two, and on November 20, 1992, for grant round number three.

WHEREAS, legislation has mandated deadlines for action on alternative methods of waste management making less time to collect available funds for this grant round than during the previous two grant rounds. In order to assist grant applicants with alternative methods of waste management these facts have necessitated the need to revise the Grant Requirements for Grant Round Number 3.

THEREFORE, the Commission hereby approves the attached revised Solid Waste Management and Recycling Grant Requirements for Grant Round Number 3.
