Little Rock, AR 72201

Dear Patti Goff:

As a 4th generation Arkansas dairy farmer,

I oppose a moratorium on farms in the Buffalo River watershed. I think agriculture is a huge reason that our state is clean, beautiful and natural. Environmental regulations should be science-based and reasonable, not driven by emotion. Please consider the benefits and stewardship of Arkansas farmers before you react to misinformation in the public arena.

I am also concerned that this kind of rule making that is not science based will make it impossible for any of us to farm and produce the food that consumers rely on in our state and the nation.

Sincerely,

Cody Anglin
