Subject: CAFOs in the Buffalo watershed

Doug Szenher

Arkansas Department of Environmental Quality

Public Outreach & Assistance Division

Dear Sir,

I want to lend my support to the ban on CAFOs in the Buffalo River Watershed. I have spent 30 years hiking, canoeing and photographing along that amazing river. There is a reason that it was protected as America's only National River - it is unlike any other place on earth. Please do not allow any large scale confined animal operations to be permitted into that watershed. To take chances with the Buffalo would be criminal at best.

Thank you,

Don House
