I moved to Arkansas because I loved the beautiful landscape and rivers! It is absolutely imperative that our extraordinary waterways be protected for both economic and recreational reasons.

The ADEQ should be ashamed that they failed to protect our most important river.....The Buffalo. This should never be allowed to happen again. That is why I support the third party rulemaking petition to ban new medium and large confined swine operations in the Buffalo National River watershed by amending the Arkansas Pollution Control and Ecology Commission Regulations 5 & 6.

Thank you for the opportunity to comment.
