Subject: Protect your Rivers

I recently retired after 30 years working for the Iowa Department of Natural Resources as Trails Coordinator and my only regret was not fighting harder to limit industrial agriculture's pollution of our waterways. I have traveled parts of the Buffalo and believe it is a major asset of your state and will be for generations to come. Please do all that you can to not go down the same shameful path we in Iowa have done. Protect the Buffalo River and all other public water ways any way you can.
