**To:** Reg-Comment

**Subject:** Buffalo National River

To whom it may concern:

As a native Arkansan, citizen of this planet, and Christian, I feel it is my duty to do all I can to protect the extraordinary gift of this earth which God has entrusted to us all. The earth, water, air, animals and fish are not ours to exploit and destroy for our short-term pleasure or gain. These gifts must be protected and managed for many generations of our children to enjoy. I hope the decision-makers and legislators of our State will consider this responsibility as God's stewards, especially now as it relates to preserving the purity of the Buffalo River and its environment.

Sincerely,

Melanie Riley
