Arkansas Pollution Control and Ecology Commission
101 E. Capitol Ave., Suite 205
Little Rock, AR 72201

To whom it may concern,

As a group that embraces science at the core of its everyday function – to protect the water-quality and environmental resources of the state of Arkansas – it is amazing to me that the commissioners of the PC&E are allowing a third-party rulemaking proposal that is devoid of science to be considered for approval.

How can you turn your back on science at the time it is most needed?

It sounds to me like the commissioners of the PC&E have embraced the language of fear and emotion that the gingers have so loudly trumpeted.

What should ring true during this emotional debate is sound science.

Sincerely,

A handwritten signature in black ink that reads "Rick Casey". The signature is written in a cursive style with a large, prominent "C".
