Subject: Amending Arkansas Pollution Control and Ecology Regulation 5 & 6

Dear Mr Szenher,

I am writing you today to voice my support of amending regulation 5 & 6 of the Arkansas Pollution Control and Ecology Commission. Concentrated Animal Feeding Operations have no place in the Buffalo River Valley due to the potential destruction of resources that they present in karst topography like what is found there. The Buffalo River contributes a \$5.76 billion positive economic impact to Arkansas and employs around 58,000 people and for this reason alone CAFO's should not be allowed.

Thank you,

Scott Parson
