Dear Mr. Szeher,

I am concerning about several
Environmental Problems facing us
in Arkansas. Enclosed is one a
group of us (a church) came up with.

I bring this matter to your
attention and I know you are well
aware of this on.

Sincerely,

T. Wesley Dodson

Talking points: Risk of Buffalo River contamination from waste holding ponds, run-off, flooding. Irreversible damage to aquatic life in Buffalo and downstream White River. Health risks carried by winds with toxic gasses, noxious odors. Porous topography of Buffalo River watershed can transmit contamination widely Arkansas tourism in 2012 earned \$5.76 billion, employed 58,452. Buffalo River attracted 1,093,083 visitors who spent \$43,780,000 in communities surrounding the river.
