Dear Mr. Szenher:

I am writing to express my support for the proposed amendments to Arkansas Pollution Control and Ecology Commission Regulation 5 and 6, to ban any new medium and large confined and concentrated swine operations in the Buffalo National River Watershed. I support this third- party rulemaking because

there are many animals in third world country that are
becoming endangered. I think it would be a shame to watch
the animals in Arkansas forest become endangered.

Sincerely,

Frederick M. Josephson
