Subject: Buffalo River

More and more creeks streams and rivers in AR are in peril. I have a creek, two miles away from me, that has two chicken houses built smack next to the creek. I mean like 20 feet! The EPA was notified, but everything was hunky dorey.....that was perfectly ok. This was maybe 5 years ago. Instead of things improving in my later years, it is getting worse. Stop killing your America and American citizens.
