Subject: comment on proposed changes to Reg. 6 General Permit notification procedures

Dear Sir:

The proposed changes to Reg. 6's general permit notification procedures are good but in my opinion can be made even better by including the following three additions:

1 Inclusion on 6.207(A) that written and published notification would be issued no more than 30 days prior to submission of the NOI.

2) Include the Arkansas Dept. of Health on the list of entities to be notified

3) Notifying the National Park Service if a facility is to be located in the watershed of a national park

Please give consideration to these suggestions and I sincerely hope that they will be incorporated into the proposed changes.

Thank you for your time.

Linda Stith
