Good Morning to you all:

For those of you that were unable to attend the Goals Committee Meeting on January 5, discussion included current issues, a Waste Management Assessment (formerly called the Needs Assessment), and possible goals. The minutes are attached above in the word document.

Those present agreed on the High Level Goals outlined in the PowerPoint Presentation above. Remember, these are High Level Goals for the State of Arkansas. There is still much work to do as far as flushing out the details, but we now have a framework in which we can move forward. Take time to review the outline and if you have any significant ideas that are not included, let me know and we can include them in the "Other" section. If you have any questions, comments, or suggestions, please call Roger or me at (501)-682-0602; or Tom Fox.

Tom has agreed to make the presentation to the full Planning Group next Thursday (January 19) at the Arkansas Association of Counties.

A tentative agenda for next Thursday's meeting:
