

List of Questions For Owners and Contractors

This Handout contains a list of questions to help owners and contractors assign who is responsible for ensuring compliance with the applicable environmental regulations discussed in this guide. You should make these assignments prior to beginning any construction activity. If you are unfamiliar with these environmental regulations, you should read Construction Stormwater general Permit [ARR150000](#) for more information.

Stormwater Permits

Assigned To

1. Who will determine if you need a stormwater permit?
(A permit is generally required when at least one acre of land is disturbed.) _____
2. Who will find out what agency issues the stormwater permit for your location (i.e., state or local government) and get the permit? To determine your permitting authority, go to the following web site: [ARR150000](#). If your construction activity occurs in an area where the city/county issues permits, contact your city/county for further information about applicable requirements. _____
3. Who will submit the Notice of Intent (NOI) before the start of the construction project and submit the Notice of Termination (NOT) to ADEQ when the construction project is complete? _____
4. Who will comply with the Endangered Species Act requirements? _____

5. Who will determine if the receiving waters are covered under a Total Maximum Daily Load (TMDL) and/or the 303(d) requirement? _____
6. Who will develop the stormwater pollution prevention plan (SWPPP) including the selection of appropriate BMPs? _____
7. Who will perform and document the on-site inspections? _____
8. How often will inspections be performed? _____
9. Who will install and maintain Best Management Practices (BMPs) and stormwater controls? _____
10. Who will notify site personnel of the permit requirements (e.g., ensuring controls are in place and telling the recordkeeper of any site changes)? _____
11. Who will modify the SWPPP during the construction project (including updating records and documenting inspection results)? _____
12. Who will update the site map? _____
13. Who will be the recordkeeper? _____
14. Who will sign the NOI, SWPPP, Inspection Form, and NOT? _____
