

ADEQ

ARKANSAS
Department of Environmental Quality

October 14, 2015

Sen. Bill Sample, Co-Chair
Rep. David Branscum, Co-Chair
Arkansas Legislative Council
Room 315, State Capitol Building
Little Rock, AR 72201

Dear Sen. Sample & Rep. Branscum:

As required in Act 77 of 2015, Section 38(a)-(e), the Arkansas Department of Environmental Quality presents the following information:

- (a) number and type of environmental permits currently authorized by the Department and Pollution Control and Ecology Commission in each environmental permit category,
- (b) total funds collected from permit fees for each permit category and the percent increase or decrease in permit fees annually,
- (c) description of each environmental permit application pending in each environmental permit category, the number of days each permit has been pending, and the reasons for delays in issuing permits for each permit that has been pending for more than 45 days,
- (d) number and type of enforcement actions initiated by the Department, the geographic location of each violation and the total fines and collections from Supplemental Environmental Projects, the percent increase or decrease in fines levied annually, and
- (e) description of all pending rulemaking activities and justifications thereof, including economic impact and environmental benefit analysis.

The information provided by each division covers the period July 1, 2015 through September 30, 2015. If you have any questions, please contact Tammy Harrelson at (501) 682-0959.

Sincerely,

Becky W. Keogh
Director

Enclosure

Permits Pending Greater than 45 Days

Permit Number	Permittee	Facility	Days Pending	Reason Code	Additional Information
AR0000752		El Dorado Chemical Company	3208	9	This permit is currently on HOLD due to Mineral Issue.
AR0035386		FutureFuel Chemical Company	2689	8	This permit was previously on HOLD awaiting the issuance of a new land application permit. Both permits need to be issued at the same time to avoid a lapse in permit coverage. The land application permit and the discharge permit have completed the public notice period. Permittee submitted numerous comments on the land application permit which are currently being reviewed and responses are currently being drafted.
AR0001171		Great Lakes Chemical Corporation - Central Plant	2653	8	This permit is currently on HOLD due to Mineral Issue.
AR0022063		Springdale Water and Sewer Commission	2578		This permit is currently on HOLD. The EPA has currently placed a hold on the approval of this permit pending the outcome of a Total Phosphorus model being ran for Illinois River watershed.
AR0000647	Lion Oil Company	El Dorado Refinery	2452	9	This permit is currently on HOLD due to Mineral Issue. This permit is currently on HOLD. The EPA has currently placed a hold on the approval of this permit pending the outcome of a Total Phosphorus model being ran for Illinois River watershed.
AR0050288	City of Fayetteville	West Side Wastewater Treatment Facility	1952		

C

Permits Pending Greater than 45 Days

Permit Number	Permittee	Facility	Days Pending	Reason Code	Additional Information
AR0043397		City of Rogers	1935		This permit is currently on HOLD. The EPA has currently placed a hold on the approval of this permit pending the outcome of a Total Phosphorus model being ran for Illinois River watershed.
AR0000582	Alcoa Inc.	Arkansas Remediation	1648	9	This permit was previously on HOLD awaiting EPA approval of EIP for Selenium. The EIP was approved, however this permit is currently still on HOLD due to Mineral Issue and proposed TMDL revision for minerals.
AR0022250		City of Dermott - South Pond	1541	9	ON HOLD due to Minerals and Mercury TMDLs
AR0049425	Associated Electric Cooperative, Inc.	Dell Power Plant	1483	9	ON HOLD due to Minerals
AR0002968	Domtar A.W. LLC	Ashdown Mill	1437	9	This permit is currently on HOLD. Due to upcoming water quality standard changes for minerals, this permit is on HOLD until further notice.
AR0039284	Hot Springs POA	Cedar Creek WWTP	1376	9	This permit is currently on HOLD due to mercury and mineral issues
AR0022373		West Fork Wastewater Treatment Plant	1344	9	This permit is currently on HOLD with no plans for issuance. This facility is in the process of routing the City's wastewater to the City of Fayetteville for treatment. Once this connection is completed, this permit will be terminated.
AR0034321		City of Harrison	1289	9	Previous Mineral HOLD Waiting for UAA workplan for Minerals
AR0048356	Tyson Poultry, Inc.	River Valley Animal Foods	1283	9	ON HOLD due to Minerals TMDL
AR0020273		City of Siloam Springs	1273		This permit is currently on HOLD. The EPA has currently placed a hold on the approval of this permit pending the outcome of a Total Phosphorus model being ran for Illinois River watershed.
AR0021792		City of Berryville	1197	4	This permit is currently in technical review by engineer or management. This permit was previously on HOLD due to Mineral Issue. This permit is currently being drafted to include requirements for monitoring and reporting of Total Dissolved Solids.
AR0000680		Great Lakes Chemical Corporation - South Plant	1135	9	This permit is currently on HOLD due to Mineral Issue.
AR0034371		City of Portland	1052	9	Mineral HOLD
AR0043508		City of Waldo	1031	9	Hg TMDL & WQMP Update Appeal
AR0049794	Halliburton Energy Services, Inc.	Magcobar Mine Site	1009	9	This permit is currently on HOLD due to a CAO and an EIP that is currently under construction.
AR0050857		City of Garland WWTP	959	9	Mineral HOLD
AR0036498	Benton Utilities	Wastewater Treatment Plant	923	9	This permit is currently on HOLD due to an upcoming revision to a TMDL which contains a mineral limit for this facility.
AR0050989		City of Wilmot	897	9	ON HOLD due to Minerals and Mercury TMDLs
AR0050997	City of Parkdale	Parkdale Wastewater Treatment Plant	869	9	Mineral HOLD and Hg Mercury Previous permit# AR0037141 JD's permit assigned to EG September 24, 2014
AR0022004		City of Huntsville	730	9	Reassigned. The permit is currently on HOLD by request of the permittee due to minerals.
AR0043192		City of Colt	728	9	On HOLD until Fecal TMDL corrected. 2/20/2014
AR0000647		City of Star City	661	9	This permit is currently on HOLD due to a mercury issue. The permit has previously finished the comment period on its redraft.
AR0033707		City of Tillar	646	9	Mineral HOLD
AR0021695		City of Rison	629	9	Hold Minerals & Mercury
AR0042951		City of Ashdown	611	9	This permit is currently on HOLD. Due to upcoming water quality standard changes for minerals, this permit is on HOLD until further notice.
AR0039659		City of Felsenthal	590	9	This permit has been placed on temporary HOLD until revisions are finalized for a Mercury TMDL. Public notice period has ended and permit is currently being finalized.
AR0021440		City of Smackover	589	9	This permit is currently on HOLD due to Mercury issues.

2

Permits Pending Greater than 45 Days

Permit Number	Permittee	Facility	Days Pending	Reason Code	Additional Information
AR0020001		City of Tuckerman	584	8	<p>It took several months to receive Design Documents and confirmation of technical information to prepare appropriate response to comments. The permit has been routed for signature.</p> <p>The draft permit is currently under review. The permit has been written with a condition stating that the facility must obtain the proper permits for disposal of the wastewaters requested to be removed from the NPDES permit. It will need to go to EPA for a 30 day review.</p> <p>Shortly after the application was first submitted, the Department requested additional information and clarification on a couple of items. Due to the length of time needed for the permittee to obtain the information, the Department recommended the application be withdrawn and re-submitted once all of the required information could be gathered. The permittee did not submit a request to withdraw the application and later submitted the requested information. Following that submittal, data was requested several times from the permittee. The permittee stated in an e-mail dated 11/14/2014 that they thought they were permitted to dispose of the boiler blowdown, cooling tower blowdown, and steam condensate in the Class V well since those waters were associated with bromine production. On 12/19/2014 the permittee stated that they would be installing a new sanitary sewer treatment plant for the sanitary wastewater but the plans had not yet been finalized. In an e-mail dated 12/30/2014, the permittee stated that the sanitary sewer WWTP would not have a surface discharge.</p> <p>The Department could not verify the permittee's claims that the cooling tower blowdown, boiler blowdown, and steam condensate could be disposed of in the Class V well. The permittee was asked for more specific information in an e-mail dated 2/25/2015. A response was received on 3/7/2015. This response was forwarded to EPA Region VI for their review. We received information from EPA on March 13th regarding the disposal of cooling tower blowdown, boiler blowdown, and steam condensate down the Class V well. It was determined that those wastes cannot be disposed of down that well. In a June 2015 letter, the Arkansas Oil and Gas Commission which regulates the Class V well stated that these waters are allowed to be disposed of in that well. The permit has been updated accordingly and is undergoing the final technical review prior to being sent to public notice.</p>
AR0043516M	Great Lakes Chemical Corporation	West Plant	566	5	
AR0048691		City of Texarkana-North WWTP	553	9	This permit is currently on HOLD. Due to upcoming water quality standard changes for minerals, this permit is on HOLD until further notice.
AR0038679	Rickey W. Cox	Shady Oaks Mobile Home Park	547	9	This permit has been placed on temporary HOLD until revisions are finalized for a Fecal Coliform Bacteria TMDL. Public notice period has ended and permit is currently being finalized.
AR0022179		City of Junction City	533	9	This permit is currently on HOLD for mineral issues.
AR0050202	Destined To Win/Family Outreach Ministry, I d/b/a Second Chance Ranch		533	9	ON HOLD due to Minerals TMDL 9/5/14: Re-assigned from JDB to EG Mercury Testing Requested for TMDL 6/9/2014-Hold Mercury
AR0020168		City of Stephens	528	9	
AR0044423		Jessieville Public Schools	464	9	This permit is currently on HOLD for mineral and mercury issues.
AR0048992	Arkansas State Highway and Transportation Dept	District V	455	9	Reassigned. This facility is attempting to route its discharge to another WWTP and then terminate the permit.
AR0034134		City of Lake City	447	9	This permit has been placed on temporary HOLD due to a CAO that is currently being drafted to address recent effluent violations. Public notice period has ended and permit is currently being finalized.
AR0034037		City of Yellville	443	4	Was on Hold for Minerals-UAA with City of Harrison. It was released from hold and routed on August 25, 2015 for Technical Review.
AR0021474		City of Bearden	441	9	This permit is currently on HOLD due to Mercury issues.

Permits Pending Greater than 45 Days

Permit Number	Permittee	Facility	Days Pending	Reason Code	Additional Information
AR0000850		Mountain Valley Spring Company, LLC	435	4	This permit was in house longer because permit engineer worked with the facility to relocate outfall and construct a new outfall structure in an effort to obtain representative samples of the discharge for demonstrating compliance with the permit. Permit limits were modified to be consistent with the new outfall location.
AR0034304		City of Earle	429	6	Application was technically incomplete. Additional information was requested and received. Facility had not discharged in the previous five years, which led to a discussion, and multiple requests for information from the permittee, about the treatment ponds possibly leaking. The issue has been resolved and the permit is at public notice now.
AR0043672		City of Kingsland	423	9	This permit has been placed on temporary HOLD until revisions are finalized for a Mercury TMDL. The permit has not been public noticed yet and is currently in technical review by engineer or management.
AR0021806M2	Little Rock Wastewater Utility	Adams Field Wastewater Treatment Plan	421	7	This permit was sent to public notice on 10/8/2015 for 30-day comment period. This permit modification involves the authorization to operate a parallel treatment system for peak flows. Since this is the first time something of this nature has been permitted, there were several iterations of language, conditions, and internal review needed during the course of permit preparation.
AR0051241	Arkansas Department of Parks & Tourism	White Oak Lake State Park	420	9	5-day review ended 10/2/2015. Will PN 10/14/2015. Renewal permit was waiting for construction permit to be issued to reference modified treatment system.
AR0047953	Deltic Timber Corporation	Waldo Mill	420	8	The permittee and the Department were not in agreement on a couple of issues raised in the permittee's comments on the draft permit. A meeting was held at the Department on August 18, 2015. Permittee is required to submit clarification of one of the comments by October 10, 2015. this permit also required inclusion in the 208 Plan update and was at EPA for 2 months (normal is 30 days or less).
AR0034029		City of Hamburg	416	9	This permit is currently on HOLD due to Mercury Issue
AR0047732	Interfor US Inc	Interfor US Inc	395	6	This permit is currently in the 30-day public comment period. The permit was previously on hold due to Mercury.
AR0034550	Arkansas Steel Associates, LLC	Arkansas Steel Associates, LLC	393	4	This permit took longer to prepare because the technology-based limits had to be recalculated and adjusted to account for a change in production rates and flow rates that occurred at the facility since last permit issuance. Application returned 7/10/14-HP Original application received on May 9, 2014-Ready to be signed effective. The Legal Division Requested the permit be placed on hold. Financial Assurance issues and potential Civil Suit
AR0047261	Chicot Sewer System, LLC	Krestwood Estates Subdivision	374	8,9	ON HOLD for minerals.
AR0034142	City of Marianna	Marianna Water & Sewer Commission - f	374	9	ON HOLD for minerals
AR0034169	City of Marianna	Marianna Water & Sewer Commission - f	374	9	ON HOLD for minerals
AR0045608		City of Sherwood - South Facility	371	8	Into review 12/9/2014. Multiple comments on Draft Permit by permittee requiring response.
AR0036668		Fnt Industries, Inc.	352	8	Internal review of permittee's request to remove a limit took extra time. Also, this facility needed to be added to the 208 Plan due to the inclusion of a water quality based limit.
AR0046311	Rogers Group, Inc	Cabot Quarry	345	5	This permit has been sent to EPA for review.
AR0047635		Albemarle Corporation-West Plant	336	4	Extended review due to implemetation of Lead TMDL and continuation of PAR requirements

Permits Pending Greater than 45 Days

Permit Number	Permittee	Facility	Days Pending	Reason Code	Additional Information

DATE: October 5, 2015 d

TO: LEGISLATIVE COUNCIL

FROM: BECKY W. KEOGH, DIRECTOR

ARKANSAS DEPARTMENT OF ENVIRONMENTAL QUALITY

RE: SECTION 38 (a) – (e) of ACT 2012 OF THE 2013 REGULAR
SESSION OF THE ARKANSAS GENERAL ASSEMBLY

As provided by Section 38 (a) – (e) of Act 2012 of the 2013 Regular Session, the Arkansas Department of Environmental Quality (“Department”) presents the number and type of administrative enforcement actions initiated by the Department and the geographic location of each violation. This information is contained in the attached copies of the Public Notice for the period of July 1, 2015 through September 30, 2015. Pursuant to A.C.A. § 8-4-103 (d) (1) the Department is required to Public Notice any administrative enforcement order and the notice must include the type of enforcement action, the geographic location of the violation, and the amount of penalty assessed. (See Attachment) The total number of administrative enforcement actions initiated during this time period is 55.

Additionally the Department is authorized by A.C.A. § 8-4-103 (b) to institute a civil action in any court of competent jurisdiction to compel compliance with state environmental laws and regulations. Following is a list of actions which have been filed in court for the period of July 1, 2015 through September 30, 2015:

Type of Enforcement Action	Defendant	Geographic Location
Civil Complaint	Lewis-Charton Properties, Inc.	White County Circuit Court
Civil Complaint	Washington County Improvement Dist. 5	Washington County Circuit Court
Civil Complaint	Arkansas Water and Wastewater Management Corp	Faulkner County Circuit Court

The Department presents the total amount of fines and collections from Supplemental Environmental Projects verified by the Department for the period of July 1, 2015 through September 30, 2015:

Civil Penalties Collected \$173,773.95

Supplemental
Environmental Projects
00.Verified \$0.00

DEFAULT ADMINISTRATIVE ORDER

Grisham Farm Transportation, LLC, Lawrence County, Water Division, Penalty \$5,200.00, LIS No. 15-061

Leonard Stephenson dba Pine Haven Park, Drew County, Water Division, Penalty \$26,150.00, LIS No. 14-183

ELECTIVE SITE CLEAN-UP AGREEMENT

Central Flying Service, Inc., Regarding Central Flying Service Maintenance Building (Former Hertz Rental), Pulaski County, Regulated Storage Tanks Division, No Penalty, LIS No. 15-088

Dated this 10th day of August 2015
Becky W. Keogh, Director
Arkansas Department of Environmental Quality

FIRST AMENDED CONSENT ADMINISTRATIVE ORDER

City of Mammoth Spring, Fulton County, Water Division, Penalty Unchanged, LIS No. 13-016-001

Dated this 26th day of August 2015
Becky W. Keogh, Director
Arkansas Department of Environmental Quality

CONSENT ADMINISTRATIVE ORDERS

Austin Powder Company, Ouachita County, Hazardous Waste Division, Penalty \$18,500.00, LIS No. 15-106

City of Bearden, Ouachita County, Water Division, Penalty \$3,200.00, LIS No. 15-108

Cooper-Standard Automotive, Inc. and Cooper Tire & Rubber Company, Union County, Hazardous Waste Division, No Penalty, LIS No. 15-103

E. Ritter Seed Company d/b/a Ritter Grain Services, Poinsett County, Air Division, Penalty \$700.00, LIS No. 15-101

JRM4, LLC, Poinsett County, Regulated Storage Tanks Division, Penalty \$3,200.00, LIS No. 15-105

Matthew Cronin, Poinsett County, Regulated Storage Tanks Division, Penalty \$3,600.00, LIS No. 15-104

Trane U.S. Inc., Sebastian County, Hazardous Waste Division, No Penalty, LIS No. 15-102

William Johnston Enterprises, Inc., Logan County, Solid Waste Management Division, Penalty \$500.00, LIS No. 15-107

FIRST AMENDED CONSENT ADMINISTRATIVE ORDERS

City of Lockesburg, Sevier County, Water Division, Penalty Unchanged, LIS No. 15-009-001

Vulcan Construction Materials, L.L.C. Black Rock Quarry, Lawrence County, Mining Division, Penalty Unchanged, LIS No. 08-109-001

SECOND AMENDED CONSENT ADMINISTRATIVE ORDER

Town of Bauxite, Saline County, Water Division, \$1,800.00, LIS No. 13-011-002

Dated this 10th day of September 2015
Becky W. Keogh, Director
Arkansas Department of Environmental Quality

CONSENT ADMINISTRATIVE ORDERS

Blue Clouds Resort, Inc., Cleburne County, Water Division, No Penalty, LIS No. 15-114

Blue Clouds Resort, Inc., Cleburne County, Water Division, Penalty \$700.00, LIS No. 15-115

City of Paris, Logan County, Water Division, Penalty \$2,000.00, LIS No. 15-109

Parker Solvents Company, Inc., Pulaski County, Water Division, Penalty \$1,800.00, LIS No. 15-113

Parker Solvents Company, Inc., Sebastian County, Water Division, Penalty \$1,800.00, LIS No. 15-112

PPG Industries, Inc., Pulaski County, Air Division, Penalty \$1,725.00, LIS No. 15-111

Union Power Partners, L.P., Union County, Air Division, Penalty \$6,750.00, LIS No. 15-110

Dated this 25th day of September 2015

Becky W. Keogh, Director

Arkansas Department of Environmental Quality

ARKANSAS POLLUTION CONTROL AND ECOLOGY COMMISSION

QUARTERLY REPORT TO ARKANSAS LEGISLATIVE COUNCIL

ON RULEMAKING ACTIVITIES

e

Months In Quarter: July, August, and September 2015

1. Regulation Number and Name: Regulation No. 2, Third-Party Rulemaking, River Valley Regional Water District; Docket No. 06-003-R.

a. Amendment Proposed By: River Valley Regional Water District ("RVRWD").

b. Description: RVRWD filed its request to initiate rulemaking on January 13, 2006. These amendments concern Regulation No. 2. Proposed changes involve amending Regulation No. 2 to include amending Section 2.304 to establish a procedure by which regional water districts and other public water authorities would be able to request approval from the Pollution Control & Ecology Commission to use a water body designated as extraordinary resource waters as a source of drinking water supply.

The Commission initiated the rulemaking process on January 27, 2006, and no final decision has been made.

c. Justification: These amendments establish a procedure by which regional water distribution districts and other public water authorities would be able to request approval from the Arkansas Pollution Control & Ecology Commission to use Extraordinary Resource Waters as a source of drinking water supply.

d. Economic Impact: RVRWD states that there will be no cost to the agency. The amendments will have no financial impact on small business.

e. Environmental Benefit Analysis: No environmental benefit analysis is required for this regulation.

2. Regulation Number and Name: Regulation No. 2, Lion Oil Company Third-Party Rulemaking; Docket No. 13-001-R.

a. Amendment Proposed By: Lion Oil Company.

b. Description: Lion Oil Company ("Lion Oil") filed its request to initiate rulemaking on January 11, 2013. Lion Oil proposes to change the Typical Gulf Coastal Fishery use designation for Loutre Creek; change the selenium water quality criterion for Loutre Creek; change the chloride, sulfate and total dissolved solids ("TDS") criteria for Loutre Creek; change the sulfate and TDS criteria for the next downstream segment of Bayou de Loutre; and change the sulfate criteria for the remaining downstream segments of Bayou de Loutre to the Louisiana State line.

The Commission is waiting on a request by Lion Oil to initiate rulemaking.

c. Justification: These regulatory changes are critically important to Lion Oil. Reasonably available control technology does not exist that would allow Lion Oil to consistently meet these limits. The proposed rule will revise the dissolved minerals and selenium water quality criteria in Loutre Creek and change the fishery use designation for Loutre Creek to a new sub-category of fishery referred to as a Limited Gulf Coastal Fishery. The proposed rule will also revise the chloride, sulfate, and the TDS criteria for one downstream segment in Bayou de Loutre; the sulfate and TDS criteria for the next downstream segment in Bayou de Loutre; and the sulfate criteria for the remaining downstream segments of Bayou de Loutre to the Louisiana State line.

d. Economic Impact: No entities would suffer negative economic impact as a result of the proposed rule.

e. Environmental Benefit Analysis: The proposed rule will revise the chloride, sulfate, TDS, and selenium water quality criteria in Loutre Creek, and change the fishery use designation for Loutre Creek to a new subcategory of fishery referred to as a Limited Gulf Coastal Fishery reflecting the long term historical in-stream concentrations and uses. The proposed rule will also revise the chloride, sulfate, and TDS criteria for one downstream segment in Bayou de Loutre; the sulfate and TDS

criteria for the next downstream segment in Bayou de Loutre; and the sulfate criteria for the remaining downstream segments of Bayou de Loutre to the Louisiana State Line. These changes will not adversely impact the environment.

3. Regulation Number and Name: Regulation No. 2, Tyson Foods Third-Party Rulemaking; Docket No. 13-005-R.

a. Amendment Proposed By: Tyson Foods Inc. - Waldron Plant

b. Description: Tyson Foods filed its request to initiate rulemaking on April 9, 2013. Tyson proposes to revise Regulation 2 by modifying the state water quality standards for chloride, sulfates, and total dissolved solids.

The Commission adopted the minute order initiating the rulemaking process on May 23, 2013, and no final decision has been made.

c. Justification: There is no current economically feasible treatment technology for the removal of the minerals. Reverse osmosis treatment technology is not cost effective and generates a concentrated waste stream that is environmentally difficult to dispose of. That technology is not required to meet the designated uses and would produce no significant environmental protection.

d. Economic Impact: This rulemaking has no impact to the environment in Arkansas that would not have otherwise occurred.

e. Environmental Benefit Analysis: No Environmental Benefit Analysis is required.

4. Regulation Number and Name: Regulation No. 2, City of Huntsville Third-Party Rulemaking; Docket No. 13-006-R.

a. Amendment Proposed By: City of Huntsville

b. Description: City of Huntsville filed its request to initiate rulemaking on June 12, 2013. City of Huntsville proposes to revise the chloride, sulfate, total dissolved solids water quality criteria in Town Branch from the point of

discharge of the City of Huntsville wastewater treatment plant downstream to the confluence with Holman Creek; in the Holman Creek from the confluence with Town Branch downstream to the confluence with War Eagle Creek; in War Eagle Creek from the confluence with Holman Creek; and remove the designated but not existing Domestic Water Supply use from Town Branch and Holman Creek.

The Commission adopted the minute order initiating the rulemaking process on July 26, 2013, and no final decision has been made.

c. Justification: The economic effects of the proposed rule are significant and beneficial for Huntsville. Huntsville has investigated technologies and alternatives to comply with the current minerals criteria, which is summarized in the Report. Reasonable available control technology does not exist that would allow Huntsville to discharge in a manner that would maintain the existing minerals criteria. Approval of the proposed rule modifying the criteria to reflect long term historical site specific conditions is the only reasonable approach so that the permit limits can be adjusted

d. Economic Impact: This rulemaking has no impact to the environment in Arkansas that would not have otherwise occurred.

e. Environmental Benefit Analysis: No Environmental Benefit Analysis is required.

5. Regulation Number and Name: Regulation No. 21, Arkansas Asbestos Abatement Regulation; Docket No. 13-009-R.

a. Amendment Proposed By: Arkansas Department of Environmental Quality.

b. Description: ADEQ filed its request to initiate rulemaking on August 9, 2013. Changes to Regulation 21 are being proposed in order to incorporate public input after an extensive two-year collaborative workgroup effort between the ADEQ and stakeholders. Proposed significant revisions to Regulation 21 include: Changes in the definition of "Regulated asbestos-containing material (RACM)."; Elimination of non-mandatory language in the Asbestos Inspection section; Clarification of

language in the Notice of Intent (NOI) Section regarding information required prior to beginning renovation projects; Addition of language to the NOI section concerning activities involving resilient floor covering renovation projects, and changes in owners or operators; Clarification of requirements in the Record Keeping Section for storage and submission of on-site documents; Addition and deletion of language for clarification purposes in the Work Procedures Applicability chapter and Licensing Requirements Exemptions subchapter; Addition of language to the Out of State Training subchapter; Clarification of the list of necessary documents under the Minimum Record Keeping Requirements subchapter; Addition of a new chapter for Accreditation Certificates; and Deletion of two sections involving fees for demolition of certain amounts of RACM. Several changes were also made for clarification and consistency purposes, or to update typographical errors throughout Regulation No. 21. These revisions are non-substantive items.

The Commission adopted the amendments on August 28, 2015.

c. Justification: The purpose of this proposed rule is to incorporate stakeholders' input in order to clarify Regulation No. 21. The Department also finds it necessary to propose changes to add or delete language for clarity in requirements for record keeping, training provider licenses, documents required for certifications or renewal of licenses and to correct the Occupational Safety and Health Administration (OSHA Asbestos Construction standard citation.

d. Economic Impact: This rulemaking adopts a federal requirement and there will be no impact to the environment in Arkansas that would not have otherwise occurred.

e. Environmental Benefit Analysis: No Environmental Benefit Analysis is required.

6. Regulation Number and Name: Regulation No. 2, Third-Party Rulemaking, City of Fayetteville Paul R. Noland Wastewater Treatment Plant; Docket No. 13-010-R.

a. Amendment Proposed By: City of Fayetteville Paul R. Noland Wastewater Treatment Plant ("City of Fayetteville").

b. Description: City of Fayetteville filed its request to initiate rulemaking on October 11, 2013. These amendments concern Regulation No. 2. Proposed changes involve amending Arkansas Water Quality Standards for minerals for the White River from the discharge of the Noland Wastewater Treatment Plant to immediately downstream of the confluence of Richland Creek.

The Commission initiated the rulemaking process on October 25, 2013, and no final decision has been made.

c. Justification: Fayetteville is not seeking a change from historical water quality conditions in the White River; rather Fayetteville seeks a site-specific modification which allows the Noland Wastewater Treatment Plant to be compliant with its NPDES Permit while making certain that its effluent does not limit the attainment of any of the designated uses of the stream segments.

d. Economic Impact: City of Fayetteville states that there will be no cost to the agency. The amendments will have no financial impact on small business.

e. Environmental Benefit Analysis: No environmental benefit analysis is required for this regulation.

7. Regulation Number and Name: Regulation No. 5, Ozark Society and the Arkansas Public Policy Panel Third-Party Rulemaking; Docket No. 14-002-R.

a. Amendment Proposed By: Ozark Society and the Arkansas Public Policy Panel.

b. Description: The Ozark Society and the Arkansas Public Policy Panel ("Ozark Society") filed its request to initiate rulemaking on April 11, 2014. The proposed changes to APCEC Regulations 5 seek to prohibit the ADEQ Director from issuing Regulation No. 5 permits for Confined Animal Operations for facilities in the Buffalo National River Watershed with either 750 or more swine weighing 55 pounds or more, or 3,000 or more swine weighing less than 55 pounds. The regulation changes will prohibit an increase in the number of swine at existing facilities in the Buffalo National River Watershed.

The Commission adopted the amendments on August 28, 2015.

c. Justification: The regulation changes will prohibit an increase in the number of swine at existing facilities in the Buffalo National River Watershed, and prevent the future establishment of medium and large confined animal operations in the Buffalo River Watershed.

d. Economic Impact: This rulemaking will not impact the environment in Arkansas that would not have otherwise occurred.

e. Environmental Benefit Analysis: No Environmental Benefit Analysis is required.

8. Regulation Number and Name: Regulation No. 6, Ozark Society and the Arkansas Public Policy Panel Third-Party Rulemaking; Docket No. 14-003-R.

a. Amendment Proposed By: Ozark Society and the Arkansas Public Policy Panel.

b. Description: The Ozark Society and the Arkansas Public Policy Panel ("Ozark Society") filed its request to initiate rulemaking on April 11, 2014. The proposed changes to APCEC Regulations 6 seek to prohibit the ADEQ Director from issuing Regulation No. 6 permits for Concentrated Animal Feeding Operations for facilities in the Buffalo National River Watershed with either 750 or more swine weighing 55 pounds or more, or 3,000 or more swine weighing less than 55 pounds. The regulation changes will prohibit an increase in the number of swine at existing facilities in the Buffalo National River Watershed.

The Commission adopted the amendments on August 28, 2015.

c. Justification: The regulation changes will prohibit an increase in the number of swine at existing facilities in the Buffalo National River Watershed, and prevent the future establishment of medium and large confined animal feeding operations in the Buffalo River Watershed.

d. Economic Impact: This rulemaking will not impact the environment in Arkansas that would not have otherwise occurred.

e. Environmental Benefit Analysis: No Environmental Benefit Analysis is required.

9. Regulation Number and Name: Regulation No. 2, Southwestern Electric Power Company John W. Turk, Jr. Power Plant Third-Party Rulemaking; Docket No. 14-007-R.

a. Amendment Proposed By: Southwestern Electric Power Company John W. Turk, Jr. Power Plant ("SWEPCO").

b. Description: SWEPCO filed its request to initiate rulemaking on September 11, 2014. SWEPCO is requesting changes for the Little River from Millwood Lake to the mouth of the Little River. SWEPCO is requesting modification of the Total Dissolved Solids ("TDS") water quality criterion from 100 milligrams per liter (mg/L) to 138 mg/L and modification of the temperature criterion from 30 C (86 F) to 32 C (89.6 F). For the Red River from the mouth of the Little River to the Arkansas/Louisiana state line. SWEPCO is requesting modification of the TDS water quality criterion from 500 mg/L to 860 mg/L and removal of the designated, but not existing, domestic water supply use.

The Commission adopted the minute order initiating the rulemaking process on September 26, 2014, and no final decision has been made.

c. Justification: There are currently no known technologically and economically feasible treatments capable of reducing the total dissolved solids concentration to levels that meet the current water quality criteria. This rule will prevent the impairment listing of the Little River between Millwood Lake and the Red River; eliminate the spatial inconsistency in the TDS criterion for the Arkansas segment of the Red River; and preserve the aquatic life, agricultural water supply, industrial water supply, and primary and secondary recreational contact designated uses of the segments of the Little and Red Rivers.

d. Economic Impact: There will be no cost to state government associated with the proposed amendment and no regulatory burden such as fees, reporting requirements, or obtaining any regulatory permit because of the modification of these mineral standards. No additional requirements will be imposed on any small business by the proposed amendment and no

small business will be required to implement any changes because of the proposed amendment. The requested changes will impact only Southwestern Electric Power Company.

e. Environmental Benefit Analysis: No Environmental Benefit Analysis is required.

10. Regulation Number and Name: Regulation No. 2, Domtar A.W. LLC Third-Party Rulemaking; Docket No. 14-008-R.

a. Amendment Proposed By: Domtar A.W. LLC ("Domtar").

b. Description: Domtar filed its request to initiate rulemaking on November 20, 2014 Domtar is requesting changes for the Red River from the Arkansas-Oklahoma state line to the mouth of the Little River; modification of the Total Dissolved Solids ("TDS") water quality criterion from 850 milligrams per liter ("mg/L") to 940 mg/L; and sulfate ("804") from 200 mg/L to 250 mg/L. For the Red River from the mouth of the Little River to the Arkansas-Louisiana state line Domtar is requesting modification of the 804 water quality criterion from 200 mg/L to 225 mg/L.

The Commission adopted the minute order initiating the rulemaking process on December 5, 2014, and no final decision has been made.

c. Justification: There are currently no known technologically and economically feasible treatments capable of reducing the total dissolved solids concentration to levels that meet the current water quality criteria. This rule will prevent the impairment listing of the Little River between Millwood Lake and the Red River; eliminate the spatial inconsistency in the TDS criterion for the Arkansas segment of the Red River; and preserve the aquatic life, agricultural water supply, industrial water supply, and primary and secondary recreational contact designated uses of the segments of the Little and Red Rivers.

d. Economic Impact: There will be no cost to state government associated with the proposed amendment and no regulatory burden such as fees, reporting requirements, or obtaining any regulatory permit because of the modification of these mineral standards. No additional requirements will be imposed on any small business by the proposed amendment and no

small business will be required to implement any changes because of the proposed amendment. The requested changes will impact only Domtar A.W. LLC.

e. Environmental Benefit Analysis: No Environmental Benefit Analysis is required.

11. Regulation Number and Name: Regulation No. 18, Arkansas Air Pollution Control Code; Docket No. 14-009-R.

a. Amendment Proposed By: Arkansas Department of Environmental Quality.

b. Description: ADEQ filed its request to initiate rulemaking on November 21, 2014. The substantive proposed changes to the Regulations 18, 19, and 26 are necessary in order to adopt the Environmental Protection Agency's 2012 National Ambient Air Quality Standards ("NAAQS") for particulate matter up to 2.5 micrometers in size ("PM2.5"), 2006 NAAQS for particulate matter up to 10 micrometers in size ("PM10"), 2008 NAAQS for ozone, 2008 NAAQS for lead, 2010 NAAQS for nitrogen dioxide, and 2010 NAAQS for sulfur dioxide.

The Commission adopted the minute order initiating the rulemaking process on December 5, 2014, and no final decision has been made.

c. Justification: The proposed changes will help ensure Arkansas has the authority to implement air pollution control programs and to issue permits. Amendments to Regulation 19 will be submitted to the EPA for inclusion into Arkansas's SIP and amendments to Regulation 26 will be submitted to the EPA for inclusion into Arkansas' Title V and Part 70 State Program.

d. Economic Impact: This rulemaking adopts a federal requirement and there will be no impact to the environment in Arkansas that would not have otherwise occurred.

e. Environmental Benefit Analysis: No Environmental Benefit Analysis is required.

12. Regulation Number and Name: Regulation No. 19, Regulations of the Arkansas Plan of Implementations for Air Pollution Control, Docket No. 14-010-R.

a. Amendment Proposed By: Arkansas Department of Environmental Quality.

b. Description: ADEQ filed its request to initiate rulemaking on November 21, 2014. The substantive proposed changes to the Regulations 18, 19, and 26 are necessary in order to adopt the Environmental Protection Agency's 2012 National Ambient Air Quality Standards ("NAAQS") for particulate matter up to 2.5 micrometers in size ("PM2.5"), 2006 NAAQS for particulate matter up to 10 micrometers in size ("PM10"), 2008 NAAQS for ozone, 2008 NAAQS for lead, 2010 NAAQS for nitrogen dioxide, and 2010 NAAQS for sulfur dioxide.

The Commission adopted the minute order initiating the rulemaking process on December 5, 2014, and no final decision has been made.

c. Justification: The proposed changes will help ensure Arkansas has the authority to implement air pollution control programs and to issue permits. Amendments to Regulation 19 will be submitted to the EPA for inclusion into Arkansas's SIP and amendments to Regulation 26 will be submitted to the EPA for inclusion into Arkansas' Title V and Part 70 State Program.

d. Economic Impact: This rulemaking adopts a federal requirement and there will be no impact to the environment in Arkansas that would not have otherwise occurred.

e. Environmental Benefit Analysis: No Environmental Benefit Analysis is required.

13. Regulation Number and Name: Regulation No. 26, Regulations of Arkansas Operating Air Permit Program; Docket No. 14-011-R.

a. Amendment Proposed By: Arkansas Department of Environmental Quality.

b. Description: ADEQ filed its request to initiate rulemaking on November 21, 2014. The substantive proposed changes to the Regulations 18, 19, and 26 are necessary in order

to adopt the Environmental Protection Agency's 2012 National Ambient Air Quality Standards ("NAAQS") for particulate matter up to 2.5 micrometers in size ("PM2.5"), 2006 NAAQS for particulate matter up to 10 micrometers in size ("PM10"), 2008 NAAQS for ozone, 2008 NAAQS for lead, 2010 NAAQS for nitrogen dioxide, and 2010 NAAQS for sulfur dioxide.

The Commission adopted the minute order initiating the rulemaking process on December 5, 2014, and no final decision has been made.

c. Justification: The proposed changes will help ensure Arkansas has the authority to implement air pollution control programs and to issue permits. Amendments to Regulation 19 will be submitted to the EPA for inclusion into Arkansas's SIP and amendments to Regulation 26 will be submitted to the EPA for inclusion into Arkansas' Title V and Part 70 State Program.

d. Economic Impact: This rulemaking adopts a federal requirement and there will be no impact to the environment in Arkansas that would not have otherwise occurred.

e. Environmental Benefit Analysis: No Environmental Benefit Analysis is required.

14. Regulation Number and Name: Regulation No. 23, Hazardous Waste Code; Docket No. 15-001-R.

a. Amendment Proposed By: Arkansas Department of Environmental Quality.

b. Description: ADEQ filed its request to initiate rulemaking on May 7, 2015. Proposed revisions to Regulation 23 include: addition of conditional exclusions from regulation for solvent wipes which are cleaned for reuse, and for carbon dioxide streams used in geologic sequestration operations. Establishment of an electronic waste manifest system to track shipments of hazardous wastes; revision of provisions affecting cathode ray tube exports; termination of the National Environmental Performance Track Program, which has been discontinued by the U.S. Environmental Protection Agency; correction of typographical errors, erroneous citations, and formatting inconsistencies in the current regulation.

The Commission adopted the amendments on September 25, 2015.

c. Justification: These revisions are necessary to keep the state hazardous waste Regulations current with the corresponding federal requirements.

d. Economic Impact: This rulemaking adopts a federal requirement and there will be no impact to the environment in Arkansas that would not have otherwise occurred.

e. Environmental Benefit Analysis: No Environmental Benefit Analysis is required.

15. Regulation Number and Name: Regulation No. 2, City of Harrison and City of Yellville Third-Party Rulemaking; Docket No. 15-002-R.

a. Amendment Proposed By: City of Harrison and City of Yellville.

b. Description: City of Harrison and City of Yellville filed its request to initiate rulemaking on August 5, 2015. The City of Harrison and the City of Yellville are requesting site specific modifications of the minerals water quality criteria for a portion of Crooked Creek in Boone and Marion Counties. Harrison seeks modification of the chloride, sulfate and total dissolved solids criteria for Crooked Creek from the outfall of Harrison's Wastewater Treatment Plant to ADEQ Monitoring Station WH10193. Yellville seeks a modification of total dissolved solids criteria from ADEQ Monitoring Station WH10193 to the mouth of Crooked Creek.

The Commission adopted the minute order initiating the rulemaking process on August 28, 2015.

c. Justification: There are currently no known technologically and economically feasible treatments capable of reducing the total dissolved solids concentration to levels that meet the current water quality criteria.

d. Economic Impact: This rulemaking has no impact to the environment in Arkansas that would not have otherwise occurred.

e. Environmental Benefit Analysis: No Environmental Benefit Analysis is required.
