RE: NPDES Compliance Inspection / Pretreatment Compliance Inspection

AFIN: 67-00023

NPDES Permit No.: AR0021733

Dear Mr. Sims:

On October 28<sup>th</sup> & 29<sup>th</sup>, 2008, I performed a routine compliance inspection and a pretreatment compliance inspection of the waste water treatment facility in accordance with the provisions of the Federal Clean Water Act, the Arkansas Water and Air Pollution Control Act, and the regulations promulgated thereunder. This inspection revealed the following violations:

#### **AR0021733**

1. Some records required by the permit were not available at the time of the inspection. Specifically, it was noted that the fecal coliform data did not have a specific sample time and the name of the individual who collects the samples was not available for all parameters.
2. During the inspection it was noted that the clarifier weirs contained an excessive amount of algae growth. The maintenance schedule may have to be adjusted to include more frequent cleanings of the treatment units.

Also, the Stormwater Pollution Prevention Plan will need to be updated when the construction of the new plant is completed.

#### **Pretreatment**

It is recommended that the facility include the exact sample location on the permits issued to its contributing industries.
