RE: Sanitary Sewer Overflow Inspection

AFIN: 18-00109 NPDES Permit No.: AR0022039

Dear Mr. Rimmer:

On December 22, 2008, I performed a Sanitary Sewer Overflow Inspection (SSO) of the waste water collection system in accordance with the provisions of the Federal Clean Water Act, the Arkansas Water and Air Pollution Control Act, and the regulations promulgated thereunder. This inspection revealed the following violations:

There was an excess accumulation of large solids in the wet well of Pump Station #17. At the time of the inspection there was a shoe and basketball along with other smaller solids that were visible in the wet well.

There were solids on the ground (rags and grease balls) at Pump Station #8 (Main Pump Station) that had apparently been removed during pump replacement.

The above items require your immediate attention. Please submit a written response to these findings to the Water Division Enforcement Branch of this Department at the following address:

Water Division Enforcement Branch
Arkansas Department of Environmental Quality
5301 Northshore Drive
North Little Rock, AR 72118-5317

This response should contain detailed documentation describing the course of action taken to correct the items noted. This corrective action should be completed as soon as possible, and the written response is due by February 24, 2009.

Section D: Summary of Findings/Comments (Attach additional sheets if necessary)

City is currently replacing pumps in Station #8 (Main) and Station #17. Stations are being maintained operational during construction work.

There was an excess accumulation of large solids in the wet well of Pump Station #17. At the time of the inspection there was a shoe and basketball along with other smaller solids that were visible in the wet well.

There were solids on the ground (rags and grease balls) at Pump Station #8 (Main Pump Station) that had apparently been removed during pump replacement.

Re: Sanitary Sewer Overflow Inspection

AFIN: 18-00109 NPDES Permit No.: AR0022039

This letter is to address the violations found during the inspection on December 22, 2008.

1. There was an excess accumulation of large solids in the wet well of Pump Station #17. At the time of the inspection there was a shoe and basketball along with other smaller solids that were visible in the wet well.

The wet well at Pump Station #17 was vacuumed out and cleaned on February 17, 2009. All the larger solids were disposed of.

2. There were solids on the ground (rags and grease balls) at Pump Station #8 (Main Pump Station) that had apparently been removed during pump replacement.

All of the debris was picked up and disposed of on February 17, 2009.

If I can be of further assistance, please contact me at 870-702-5103.

Sincerely,

A handwritten signature in black ink that reads "John Rimmer". The signature is written in a cursive, flowing style.

RE: NPDES Permit AR0022039, AFIN 18-00109
Response to Inspection

Dear Mr. Rimmer:

ADEQ has received your response to the December 22, 2008 routine compliance inspection and Sanitary Sewer Overflow Inspection of your facility by our District Field Inspector, Brent Walker. Your letter appears to adequately address the discrepancies identified during the visit.

The Department will keep the inspection and response on file and will consider them as required by the Pollution Control and Ecology Commission Regulation No. 7, Civil Penalties. This regulation requires ADEQ to consider the past history of your company and how expeditiously the violations were addressed in determining any civil penalty that may be necessary for any violations.

Thank you for your attention to this matter. If we need further information, we will contact you. Should you have any questions, feel free to contact me by phone at 501-682-0632 or e-mail at robertsa@adeq.state.ar.us. In any written correspondence to this Department, please refer to NPDES Permit AR0022039 and AFIN 18-00109.

Sincerely,

Anne Roberts
Enforcement Administrator
