Section D: Summary of Findings/Comments (Attach additional sheets if necessary)

Northwest Arkansas Regional Airport has a waste collection system that currently discharges untreated sewage/waste to the City of Bentonville POTW and is responsible for the operation and maintenance of the collection system. On August 21, 2010, an SSO was discovered at a manhole south of the North Lift Station. The 08/24/10 inspection revealed that remediation of the SSO had not yet been completed. Following the initial inspection, the City of Bentonville assisted with the recovery and disposal of the remaining overflow waste. It was determined during this follow-up inspection that remediation of the impacted area was complete.

The conditions observed during this inspection are discussed in the letter addressed to Mr. Keith attached to the 08/24/10 inspection report. Photographs taken during this inspection are included in the 08/24/10 inspection report.
