Section D: Summary of Findings/Comments (Attach additional sheets if necessary)

This inspection was performed with Joel Dougherty, EPA Region 6, RCRA. Mr. Dougherty's inspection primarily dealt with the wastewater discharges of the G-P Chemical Plant to the G-P Crossett Papermill's wastewater treatment system. G-P Chemical, LLC operates under AFIN 02-00028. The Chemical plant does not have its own NPDES permit due to fact that all wastewater and storm water goes to the Papermill's WWTP.

See EPA RCRA inspection of the facility for further findings.
