Re: Compliance Inspection (Newton Co)
AFIN: 51-00020 State Permit No.: 3540-WR-5

Dear Mr. Campbell:

On March 26, 2014, I performed a routine compliance inspection of your permitted confined swine operation in accordance with the provisions of the Arkansas Water and Air Pollution Control Act and the regulations promulgated there under. This inspection did not reveal evidence of any violation.

Please be advised, in order to terminate the above-referenced permit, a written request must be submitted to the No-Discharge State Permits section of the Water Division.

If I can be of any assistance, please contact me at (870) 446-6170 or by e-mail at kirkpatrick@adeq.state.ar.us.

Sincerely,

Bruce Kirkpatrick
District 2 Field Inspector
Water Division

cc: Mr. Richard Gray, EHS Manager, Cargill, LLC (Richard_Gray@cargill.com)

**ARKANSAS DEPARTMENT OF ENVIRONMENTAL QUALITY
Agricultural Permit Inspection Report**

Inspection Date 03/26/14	AFIN Number 51-00020	Permit Number 3540-WR-5	County Newton	Compliance Status IN

To whom it may concern:

This letter is certifying closure of the waste system on the C and C Hog Farm, Owner Richard Campbell, Permit No. 3540-WR-5 has been completed. The liquid and solid waste have been removed and spread on the pastureland underlined in the conditions of the permit and according to the Animal Waste Management Closure Plan.

The holding pond and settling basin of the waste system have been cleaned out and filled in meeting NRCS standards and specifications and also in accordance with current permit requirements.

The surrounding areas are seeded for revegetation purposes over the disturbed area. There does not appear to be any problems existing at this location.

Respectfully,

Margaret Lonadier
District Conservationist
Natural Resources Conservation Service

Subject: RE: AFIN 51-00020 (3540-W)

Under their currently active permit, 3540-WR-5, we have an NRCS certification for closure of the ponds:

http://www.adeg.state.ar.us/ftproot/Pub/WebDatabases/PermitsOnline/NPDES/PermitInformation/3540-WR-5_NRCS%20Closure%20Plan_20140317.pdf

However, we cannot void their permit without the permittee sending us a request, which we have not received to date.

Thanks,

Katherine Yarberry, PE

Importance: High

Katherine,

Bruce and I went to the above-referenced AFIN Wed March 26. The holding ponds had been filled in. Bruce was not able to find any closure plan submitted to the Department in PDS and Melissa did a ZyLab search that only resulted in the 2012 Annual Report and land application records for May 2013. Sarah Cousins is listed as the Permit Engineer, but I know she's now in General Permits. Could you help Bruce locate the closure plan, letter from NRCS, and/or approval letter from No-Discharge about the approval to close the holding ponds (if they exist)? Thank you.

Kerri McCabe
