Non Compliance Inspection of collection system: the lid at lakeside station was pulled and repaired 7 20-2017

Non Compliance: The last quarter of 2016 a failure to have Flowmeter calibrated on time

#### We fill this problem was due to:

Oversite, due to confusion on who is supposed to contact vendor for calibrations of COHS flow meters.

#### We plan on correcting the problem in this manner:

We have had the meters calibrated to date, and are planning on giving a contract to one vendor for three to five years, along with pop up reminders on our computers.

### Time estimated that it will take to correct problem:

We have already had meters calibrated for the Regional Plant AR0033880, SWWWTP AR0050148. We are currently writing the flow meter specification's contract to put out for bid.

# RE: Hot Springs POTW – Response to Inspections (Garland Co) AFIN: 26-00145 NPDES Permit No.: AR0033880

Dear Mr. Frasher:

I have reviewed the response pertaining to my July 17-19, 2017 inspections of the City of Hot Springs WWTP and collection system. The information provided sufficiently addresses the violations referenced in my inspection reports. At this time, the Department has no further comment concerning these particular inspections. Acceptance of this response by the Department does not preclude any future enforcement action deemed necessary at this site or any other site.

If we need further information concerning this matter, we will contact you. Thank you for your attention to this matter. Should you have any questions, feel free to contact me at (479) 968-7339 extension 14 or you may e-mail me at <u>harmont@adeq.state.ar.us</u>.

Sincerely,

Travis Horman
