Good evening Kim,
We continue to maintain and pick our litter fences daily. The ponding water by our saw dust pile and seep have been repaired immediately. As weather and equipment permits we are addressing the flagging along our south and north slope.

Please let me know if you have any questions.
Thank you.

Good afternoon Kim,
A horseshoe berm is now being used when fill is on slopes. Flagging has been and continue to be picked up at the top deck and more interim cover has been placed on area of cell 4. More cover is being added to all north slopes and storm water berms rebuild. Ditches are being weed and picked. Class 4 has been mowed.

Please let me know if you have any questions.

Thank you.
