SUMMARY OF FINDINGS

On May 27, 2020, I arrived at Ozark Mountain Poultry in response to a complaint regarding the smell of the wastewater coming from the facility. Ozark Mountain Poultry is an Industrial User for the City of Rogers Wastewater Treatment Plant. I met with Eamon Moriarty, Environmental Manager, and Tommy Lewis, Maintenance Manager who gave me a tour of the pretreatment process. The pretreatment process was functioning correctly and the smell was consistent with what is expected for wastewater at a poultry processing plant.

GENERAL COMMENTS

For more information please refer to either the Industrial Stormwater inspection report or the complaint report.
